Arrest Made In Franks Boy Murder In Chicago PEACE PREVAILS TODAY AT WACO CONVENTION

WAITER SUSPECT WITH FOREIGN NAME WAS HELD

CHICAGO, May 27.—Adolph Popritz, a waiter, answering to the general description of "George Johnson" sought for the murder of Robert Franks, the millionaire's son, was arrested. A gray automobile, answering the description of the one in which Robert was kidnapped, was taken with Popritz.

Scores of police officers, armed with picks and shovels and working in little squads, today started digging operations in an effort to recover the clothing stripped from the body of Robert Franks, 14, kidnapped and murdered here last week. So far the hundreds of policemen and detectives assigned to the case have been unable to find a tangible clue to the slayers.

Chief of Police Collins ordered his men to dig up a sewer near the home of Mott Kirk Mitchell, 62, an instructor at the Harvard Private School, attended by Robert. Mitchell has been held by police since last Thursday, and has admitted to psychopathic tendencies.

One of the theories of police is that Robert was the victim of perverts. Chief of Detectives Hughes has not abandoned that theory, although he is inclined to think that ransom was the real motive for the kidnapping.

Chief of Police Collins said today he would start digging operations at the barrens, where Robert's body was found. A body of water in the same vicinity will be fished on the theory that the boy's clothing was weighed with rocks and thrown in. The barrens have been raked and the debris carefully examined but nothing tangible was found.

Detectives made a number of mysterious visits to loop hotels during the night. They visited at least four hotels, questioned several persons and finally wound up at one of the biggest hostels outside the Loop, where a temporary "crime headquarters" was established.

"All of the 'mysterious gray cars' picked up by police in the hunt for the machine used in spiriting Robert away have been released.

Scores of tips are coming in hourly. One man reported seeing two women digging up the ground near where the body was found; another man saw digging operations by suspicious persons in another section of the city. All tips are being followed in the hope of hearing a tangible clue.

MARX WILL FORM NEW GERMAN CABINET

BERLIN, May 27.—President Ebert at 5 p. m. today commissioned Chancellor Marx to form a new Cabinet, replacing that which resigned last night.

Other leaders had been consulted by the President and had proved unable to assume the Chancellorship.

By CARL D. GROUT
(United Press Staff Correspondent)

BERLIN, May 27.—Resurrection of the Marx Cabinet with some changes from the old is anticipated as an immediate development in the German political situation. Many believed the Chancellor would have his new Cabinet ready in time to appear at the opening of the Reichstag in mid-afternoon.

Marx and his ministers resigned last night but were requested to carry on current affairs. The program called for inviting Herr Herzt, Nationalist leader, to form a Cabinet perhaps even Herr Mueller, the Socialist leader. It was assumed these leaders would fail, where after President Ebert would invite Marx to reform the old Cabinet and with a few changes Germany would be back where she started.

The Reichstag was to open this afternoon with nothing more important scheduled for the first days than the selection of a president for that body. The Nationalists claim

CHIEF FIGURES IN NEWS SPOTLIGHT.

Below: HOWARD CARTER, MONTAGU DOREY, THOMAS S. BUTLER, ISADORA DUNCAN.

A new airplane will be sent from Paris to Shanghai if Captain Felleiter d'Oisy, French air ace, who crashed there, desires to continue his flight to Tokyo. Howard Carter, American co-discoverer of the tomb of King Tutankhamen, has settled his differences with the Egyptian Government and will continue next year to explore the tomb, but will leave the King's body there, untouched. Declaring the American Navy has fallen behind that of Great Britain, Representative Thomas S. Butler, of Pennsylvania, chairman of the Naval Affairs Committee of the House, asked for the construction of eight scout cruisers, six gunboats and the modernization of six battleships. Isadora Duncan, famous American dancer, narrowly escaped death when her automobile was ditched near Petrograd, Russia. She was knocked senseless and received injuries about the head and face.

TWO AMERICANS ARE REPORTED KILLED IN CHINA

PEKIN, May 27.—Two unnamed American missionaries are reported to have been killed at Kweilin, Kwangsi, when Northern troops besieged that city May 8.

The report, which is unconfirmed, reached the American legation here today from the consulate at Canton.

Occupants of the Kweilin mission were Miss M. Coppitt, Miss E. M. MacDougal, Miss N. E. Jones, Joseph Cunningham and his wife and a Miss Alverson. They represented the Christian and Mission Alliance, headquarters New York.

With Babe Ruth at Bat.
First inning—Eleventh homer in left field stands.

Third inning—Flied to left.
Fifth inning—Walked.
Seventh inning—Doubled to right.

Learn To Preach And Select Your own Denomination

DALLAS, Texas, May 27.—A theological seminary without denominational relationship has been announced as an addition to theological training schools, by Dr. Lewis Sperry, Chafer, pastor of the Schofield Memorial church, and Dr. W. M. Anderson, pastor of the First Presbyterian church.

The two ministers are president and vice president of the training of ministers to enter the ranks of any denomination on a groundwork of sound and approved teaching of the Bible as the inspired word of God, as well as a full and thorough going theological training.

It is not intended that the college be the arguments of the controversy inclined of any denomination or particular school of thought, but it is meant to teach the fundamentals of Christianity without sectarian influence.

Famous Last Words—"Watch me pass him at the next corner."

CITIZENS TO VOTE ON NEW CHARTER JULY THE SEVENTH

A meeting of the City Commission was held in the city hall Tuesday morning at eleven o'clock for the purpose of calling an election for the new charter drawn up by the Charter Commission and recently submitted to the city. The date for the election was set for the 7th of July.

Previous to the election copies of the new charter as drawn up by the Commission will be printed and submitted to each voter in the city. Thirty days at least will be allowed the voters for a thorough study of

the new instrument before the date set to vote upon it. It is undecided as yet in just what form it will be printed, whether in the local newspaper or in separate pamphlet form, but the city commission stated that every effort will be made to place a copy in the hands of each and every voter in order that each and every one may be able to give the charter a thorough consideration before making a decision either for or against it.

DEATH GETS TOLL OF SIX MEN IN BURNING HOTEL

NEW YORK, May 27.—The bodies of six men were found in the ruins of the Mills hotel, which was swept by fire. More than 100 men were asleep in the hotel when the flames burst out. Only a part of them have been accounted for.

EARLY ACTION ON NEW TAX BILL INDICATED

WASHINGTON, May 27.—Early action by President Coolidge on the new tax bill was indicated by those close to him today.

All parties at the Capitol expect the President to sign it. The convincing way in which the measure was endorsed in both House and Senate, coupled with a statement from Secretary Mellon's office that he would not recommend a veto, caused leaders to believe Mr. Coolidge would not fail to accept it.

The Treasury Department, to which the President referred the measure last night for a report on its effect on the national revenues, will deliver its statement to him late today or tomorrow.

Mr. Coolidge who has been studying the provisions of the bill since the conference agreed on its final form, it not expected to delay his decision on it. He has until midnight, June 7, to act. If Congress adjourns before that hour and the bill is not acted on, it dies by a "pocket veto," if it is still in session, then the unacted bill would become a law.

NORRIS FAVORED FOR OWNERSHIP OF MUSCLE SHOALS

WASHINGTON, May 27.—The Senate Agriculture Committee favorably reported the Norris Government Ownership plan for Muscle Shoals. The motion to report the Ford plan favorably was defeated. The fight now goes to the floor of the Senate, where Ford's plan and possibly others, will be offered as substitutes.

World's Tennis Champ Is Sick

LONDON, May 27.—With reports from Nice that Suzanne Lenglen, world's tennis champion, is seriously ill, tennis experts agree that Miss Helen Wills, American champion, will run away with the Olympic championship.

London papers comment that "only a Lenglen, playing a perfect Lenglen game, could beat the American champion."

The correspondent of The Mail wrote today that the French girl has lost so much weight at Nice that she is hardly recognizable, that she looks incapable of holding a racquet and that she cannot hope to play again until she has had a long rest. He expressed the opinion that it would be physically impossible for her to play this summer.

Mrs. Molla Mallory, former American champion, arrived here today. She is to play with the American team in the Wightman cup matches at Wimbledon.

Mrs. John Poindeux and little son, of Crockett, are the guests of Mrs. Poindeux's mother, Mrs. Charles Alderman, of East Commerce, this week.

McCormick May Become Envoy to Japan.

U. S. Senator Medill McCormick, of Illinois, defeated for renomination in the recent primaries, is mentioned as President Coolidge's choice to succeed Cyrus E. Woods as American Ambassador to Japan.

WEST CHAIRMAN OF REPUBLICAN CONVENTION AT DALLAS

DALLAS, Texas, May 27.—The State Republican convention with 600 delegates present, completed its organization and is ready to elect delegates to the national convention this afternoon. W. S. West of Brownsville is permanent chairman. The morning session was harmonious with the steam roller working smoothly.

Boy Confesses To Murder Of Teacher

ELLSWORTH, Maine, May 27.—Roland MacDonald, overgrown 15-year-old school boy, was held here in jail today after confessing to the brutal murder of his teacher, Louise Gerrish, 19.

The boy shot and killed the girl with a charge of buckshot, took her rings and watch and buried the body in a shallow grave.

His 13-year-old brother is held as a material witness.

ST. ANDREWS, Scotland, May 27.

—Francis Brown, Honolulu, the lone American entry in the British amateur golf championship tournament, won his first match today by defeating Allen Graham, 2 and 1.

LIMESTONE CO. STANDS BY ITS INSTRUCTIONS IN CAUCUS

(SPECIAL TO THE NEWS)
WACO, Texas, May 27.—Peace prevailed at the morning session of the State democratic convention.

Amid much confusion district caucus was held.

The 6th congressional caucus endorsed W. C. Davis of Bryan and Jackson of Hill county as delegates, and E. O. Tatum of Wortham as one of the alternates. Judge J. E. Bradley of Groesbeck received the vote of Limestone county on every ballot. Freestone county offered the name of A. Garland Adair and on several ballots he received 34 1/2 votes of the 70 to elect. Limestone delegates did not vote on any ballot for Adair.

Judge Davis was rushed in as a dark horse and won with the Hill county man.

The convention meets again at 3 for the business of the session.

WACO, Texas, May 27.—A bitter fight to determine whether or not Governor Pat Neff is to be permitted to go to the New York national Democratic convention as a delegate at large loomed, as the State Democratic convention convened here today.

Eleventh hour efforts at a compromise by which the Governor would be included in the delegation apparently failed, and early today it was reported the Dallas delegation would lead the fight against Neff. The Dallas delegates were instructed to oppose Neff as a delegate by the county convention. Thomas B. Love, national committeeman, declared he would oppose Neff to the finish.

Plans were made for Mike T. Lively and Alex. Poe of Dallas to take the floor against Neff if the committee on delegates recommended the Governor as one of the delegation.

Love came out victorious over the opposition which had developed to his re-election as national committeeman, which had been encouraged by Governor Neff's friends. Alva Bryan, of Waco, endorsed by the Waco delegation for the post, withdrew, leaving Love without opposition. W. A. Hangar, of Fort Worth, who until the recent McAdoo campaign was a bitter opponent of Love, is said to have brought about the withdrawal of Bryan.

Selection of Marshall Hicks, of San Antonio, as temporary chairman, is regarded as a blow to Governor Neff's chances of going to the national convention. Hicks resigned from the board of regents of the University some months ago. The San Antonio delegation, also instructed against Neff, and Hicks, as a member of that delegation, is expected to recognize the faction opposing Neff on the convention floor.

The Owensley friction is apparently settled, with assurance given that the Texas former Legion commander will be "indorsed" for the vice presidency, but not "instructed" for him.

In the keynote address before the convention Chairman Hicks lauded the Wilson administration and read a telegram of greeting from McAdoo, in which McAdoo expressed confidence in the Texas delegation to "clinch victory for progressive democracy." Governor Neff did not stand with other delegates when the telegram was read. Following appointment of committees, the convention adjourned until 2 o'clock. The first business will be the re-election of Thomas B. Love as national committeeman.

Fire Does \$200,000 Damage In Kansas

KANSAS CITY, Mo., May 27.—Fire in the building occupied by the Jenkins Bros. Music Company caused \$200,000 damage to the structure and stock today. The blaze started in bundles of waste paper and rapidly spread through the six-story building.

PARIS, May 27.—An American naval technician was here today studying developments in the matter of the diabolical or death ray invented by Grinell Matthews, an Englishman.

Big Storm Sweeps Over Two States

Methodist Ladies Discuss Child Welfare

The Woman's Missionary Society met Monday afternoon at 3:30 at the First Methodist Church. Quite a few ladies were present for the mission study lesson on "The Child and America's Future." Mrs. Andrews opened the service with prayer after which Mrs. Landrum gave us such an interesting lesson on Saving Young Babies. Mrs. Andrews, Mrs. Anderson and Mrs. Peyton giving relative Scriptural readings. The lesson was very aptly illustrated by beautiful posters made by the Sumpter Street School children on Child Health and Hygiene, and which were very kindly loaned us by Mrs. Bergeron.

—Reporter.
The right to elect this officer. Long before the doors opened throngs were clamoring for admission, anticipating a lively show with General Ludendorff and Admiral von Tirpitz in action as members of Parliament for the first time.

Dan Cupid Losing Out In Jefferson

BEAUMONT, May 27.—Cupid had a great inning in Jefferson county during May 1922—an average of five licenses a day were issued in the "merry" month of that year.

But this is leap year and the average has slumped to between two and three a day.

To make matters worse, 84 divorce cases were filed during the first 17 days of this month and the famous "Dan" threatens to lose his crown for all time in this county unless he bunches his hits during the remaining 14 days.

Despite the fact that only the 58th district court has been in session, 25 couples again become fair game for Mr. Cupid. Had both courts been in session for the entire month it is believed that the number of divorces would have exceeded the number of licenses by a goodly margin.

HEAVY LOSS OF LIFE-PROPERTY DAMAGE IS RESULT

BIRMINGHAM, Ala., May 27.—Heavy loss of life and huge property damage has been reported as result of tornadoes which swept parts of Mississippi and Alabama.

Ten persons reported dead at Creelton, which was apparently the hardest hit.

Dead in other towns and villages range from ten to eight, according to reports.

The storm seemed to have struck simultaneously over a wide area.

Communication is demolished and great damage to crops was done. The heaviest floods in the history of the section are reported from Charleston, Miss. Scores of the injured are being cared for by the local Red Cross units.

RELIEF WORKERS ON JOB
JACKSON, Miss., May 27.—Re-

lief workers from Brookhaven, Miss., were caring for dozens of injured in the cyclone which struck and demolished the village of Johnson Station, in Lincoln county, south of Brookhaven.

First reports that eight persons were killed have not been verified. Wires are down and communication impossible.

Six injured persons, three of one family, are being cared for in a Brookhaven hospital. All are severely injured.

The tornado demolished two stores at Summit, near Brookhaven, it was reported today. Two negroes are reported buried under the debris of one store.

LATER—It is believed that 36 or more are dead in the cyclone in Alabama and Mississippi.

THE WEATHER.

East Texas—Tonight and Wednesday unsettled, probably local showers and thunder storms; cooler tonight in northwest; cooler in interior Wednesday.

West Texas—Tonight and Wednesday unsettled; probably showers in north portion tonight.

Sumpter St. School Gives An Exhibit At Public Library

The Sumpter Street is giving an exhibit of regular school work at the Public Library today and tomorrow. The exhibit is open on each of these days from 10 a. m. until 6 p. m. and the public is invited and urged to come and view the work which is now on display. The exhibit consists of examples from every department of the Sumpter Street School.

AMUSEMENT BAN LISTED BY METHODIST CONFERENCE

SPRINGFIELD, Mass., May 27.—The amusement ban, prohibiting dancing, theatres, games of chance, etc., was partially lifted by the general Methodist conference when it voted to adopt the majority report on state of the church. Members will be required to refrain from "such diversions as cannot be used in the name of Jesus Christ."

AURORA, Ill.—Connie Currie, Sioux City, Iowa, earned a draw in 10-round battle with Bud Taylor, Tagge Haute, Ind., here last night.

THE EDITORIAL OF THE DAY

THE KIND OF PRESIDENT THE COUNTRY NEEDS!

Jim Lowry, editor of the Honey Grove Signal, has discovered that the United States needs a bald headed man for the presidency, and he has spent considerable time in digging into history to prove that he is correct.

"But what kind of a man does the country need for president?" asks the astute editor of the Honey Grove Signal. "This is the question now agitating the minds of the people of the United States. I have promised not to discuss the question from a party standpoint, and I will not. I have studied history to find the kind of men who have served best as chief executives, and have studied closely the pictures of all the Presidents. I find that times were good during the reign of George Washington; I also find that taxes were very low while John Quincy Adams was President. The thing to do, then, was to study the pictures of George Washington and John Quincy Adams, and this I did. The pictures of these distinguished patriots show that both were bald-headed. And so it is clear to me that what this country needs is a bald headed President. There hasn't been such a President since John Quincy Adams, and matters have been constantly growing worse since that great statesman left the White House.

"By consulting Holy Writ I find that the Lord never favored hairy men for official position. Esau, who had a heavy suit of hair on his head and body, was born head of Israel, but the Lord took his birthright away and gave it to bald-headed Jacob. Long-haired Sampson had a good job as Judge, but instead of looking after his country as he should, he gave away state secrets to a heathen suffragette and was by her lured to a tragic death. Long-haired Absalom had a large following and a fine chance to capture the throne of Israel, but he let a tow-headed mule hang him to a limb and became an easy target for a javelin of Joab. It is easy to see that what this country needs is a bald headed President."

Jim Lowry is a bald-headed man. Let the reader draw his own conclusions.

Foreign-Born In Cities Big U. S. Church Problem

GRAND RAPIDS, Mich., May 27.—

A report of the 122nd year of Presbyterian Home Mission in the United States was presented today to the Presbyterian General Assembly by the new Board of National Missions. Dr. John A. Marquis, general secretary, stated that the emphasis is no longer upon territorial expansion, but that the overwhelming problem is in the baffling complexity of our population.

Dr. Marquis said that the rapid changes of recent years have left the church bewildered and all but helpless in thousands of communities where once it was securely planted. The great new idea embodied in the Board of National Missions is to create an inclusive national organization broad enough to deal with every aspect of Christianizing America.

The work of National Missions, says the report, is conducted within the border of every State in the union, and also in Alaska, Canada, Cuba, Porto Rico and Santo Domingo.

Within this field of National Missions are gathered human beings of the greatest mixture that have ever dwelt under one flag in the history of mankind, a total of 125,000,000 people. Among them are 11,000,000 negroes. There are also 14,000,000 foreign-born, most of whom cannot speak the English language; and these have 21,000,000 children who, if they ever learn English must learn it outside their own homes. Together they constitute one-third of our population and are a problem in assimilation no nation has had to tackle before.

Included in these multitudes are 7,000,000 Spanish-speaking people. Two million of them live along the southern border and 5,000,000 of them in the West Indies. In addition to these there are about 4,000,000 other

Latins living in the United States. Besides Latins there are several million Slavs, Russians, Czechoslovaks, Poles, etc., and something like 1,000,000 Greeks and others from the Balkans and Eastern Europe.

To give a concrete idea of how conglomerate and mixed this population is the Board of National Missions every Sabbath preaches the Gospel in forty-nine languages.

Five Big Problems.

The report stated that five problems stand out.

The first has to do with the readjustment of population as between city and country. In 120 years the number of cities with a population of over 8,000 has increased from six to 924. The total population resident in such places has increased 219 fold, or from 4 per cent of the total population to 44 per cent of the total. The tide of foreign-speaking population that has flowed into the greater urban centers has inundated many of the older American churches. At the same time, especially in the older settled sections of the country, rural communities have declined in population and open country institutions have lost its prestige to the villages and towns.

The second condition which manifests itself here and there throughout the country is the retardation—economic, social and educational—which still characterizes great numbers of people. Many millions of people in the aggregate have been left far behind in the march of progress, with institutions, culture

and outlook reminiscent of a long distant past, due to their topographical position. Rapid changes are taking place now as modern inventions break through the walls of isolation. But in many such sections the meagerness of the resources at hand and the very rapidity of the social change create conditions which are and will for a long time continue to be of grave concern to National Missions.

The third problem presenting many aspects and everywhere present in some form is the problem of race relations. Out of every hundred of our population 14 are foreign-born, 20 are children of foreign-born, 10 are descendants of foreign-born, who have preserved to some degree foreign characteristics, and 11 are negroes. The United States has received 35,000,000 immigrants in the last 100 years. We have one-fourth of the world's Jewish population. In many of our largest cities, such as New York, Boston, Newark, Buffalo, Cleveland, Lowell,

Chicago or Milwaukee, over 70 per cent of the total population is foreign born or of foreign parentage.

The fourth problem is the problem of the migrant. There are many widely-extended industries which draw workers from large areas and keep them employed for but a short period. They are not vagrants, but they are seldom long in one place and settled community institutions have but "very slight" contact with them. To reach the migrant with the message of religion is a peculiarly difficult problem, but they cannot safely be left untouched by the church.

Finally, there are the very considerable numbers of definitely non-Christian peoples, that is, those who nominally at least are adherents of some other religion than Christianity. The Jews, Mormons, Orientals and that part of the American Indians still remaining in paganism are the chief examples. Their number ag-

gregates at least 5,000,000.

The report thus discusses the church instrumentalities for meeting these problems and puts stress on education and Americanization. "A Christian democracy can only exist among an educated people," it says. The report covers in detail the entire process of reorganization of every branch of its service. Under the section concerning buildings and property it was stated that four out of five of the country churches need to be rebuilt.

Dog Pound Pen Overturned And Dogs Liberated

BONHAM, Texas, May 27.—Ten dollars has been offered for the arrest of the person who thwarted the forces of law and justice here twice in the same way.

Fifty dogs held in the city pound, were lawfully given their freedom here for the second time in a period of two days.

According to Chief Grimsinger, the baffled potentate of the city police forces, the animals were released by lifting up the pen and turning it over. "It will be the last time that trick is done," said the chief. "We are on the lookout for the culprits and will prosecute them if caught." Whether human or the desire to recover a dog was the motive in the pound delivery, is not known.

Good Advice for Women

San Antonio, Texas.—While taking Dr. Pierce's Favorite Prescription for feminine weakness I was also relieved of stomach trouble. The 'Favorite Prescription' was exactly the tonic I needed in every respect. I got well shortly after I started taking it. My belief is that what it did for me it will do for others. Therefore I advise all women who are in poor health to take a course of this treatment.—Mrs. J. T. Stauffer, 1522 W. Houston Street.

MEXIA NEWSIES MAKE MUCH MONEY WITH LITTLE WORK DURING THE DAY

A ten day record of the Newspaper sales made each day by some of the newsboys of Mexia was kept by E. J. Ormsby, of the Pioneer News Stand. This record was kept of the morning sales only. A record of the Daily News sales in the afternoon would show a fifty per cent larger amount.

The amounts which show for the month and the year below were based upon the sales made during the ten days. The amount shown for each day is the average earned per day during the ten days that the record was kept.

| | (Average per day) | (Per Month) | (Per Year) |
|-------------------------|-------------------|-------------|------------|
| F. H. Thompson | \$1.23 | \$37.53 | \$525.42 |
| J. T. Sharp | .90 | 27.90 | 334.80 |
| Marshall Killon | .88 | 21.08 | 252.96 |
| Gerald Sharp | .63 | 19.53 | 234.36 |
| Earnest Vandiver | .56 | 17.36 | 208.32 |
| J. O. Stewart | .48 | 14.88 | 178.56 |
| G. B. French (10 years) | .31 | 9.61 | 115.32 |
| Clyde Miles (9 years) | .43 | 13.33 | 159.96 |
| Earl Sawyer | .67 | 20.77 | 249.24 |
| Rufus Copeland | .57 | 17.67 | 212.04 |
| Bill Thompson (8 years) | .20 | 6.20 | 74.40 |
| Jimmie Cline (10 years) | .30 | 9.30 | 111.60 |

This record was made during the ten days preceding the opening of the baseball season and newspaper sales have largely increased since then. Each boy was told how much he had earned with the idea of inducing them to save. However some of the boys had been saving and others had made enough in the hour and one half which they worked before school each day and in the few hours put in after school to buy all their clothes and to have spending money besides.

This record made by the newsies is something, it is believed, which cannot be excelled by any town in the south of even twice the population of Mexia. The people of Mexia have been more responsive to newspaper reading than is usually found in the other small cities of the state, and this it is pointed out, shows a cosmopolitan citizenship.

In addition to this record of some of the local newsboys, there is a carrier organization, the figures of which would be very interesting and will no doubt be given out after a time. It has taken a long time to bring the carrier crew to the present state of service to the customers. The routes followed each evening by the boys on the delivery of The Mexia Daily News are theirs. The boys also have the exclusive right to the sales of Sunday papers and magazines on their own routes. Mr. Ormsby is the wholesaler who supplies the boys with the papers. The boys pay him a dealers price for the periodicals which they sell. The carrier boys get commissions on all subscriptions and collections.

Cutworms Working In East Texas

By R. R. REPPERT, Entomologist
Reports are reaching us from certain counties, especially in East Texas, that cut worms are doing damage to young cotton. It is hoped that the following suggestions will be of value to farmers of such sections.

The worms may be destroyed by distributing onion bean mash thinly along the rows, using a planter or other soil mechanism, or by placing it by hand. The mash is prepared of the following materials:

Wheat bran 25 pounds.
White arsenic or paris green 1 pound.
Lemons or oranges 6 fruits.
Low grade cane or sorghum molasses 2 quarts.
Water 1 gallon.

Mix the bran and poison thoroughly while dry. Dilute the molasses with the amount of water as named. Squeeze the lemon juice into this diluted molasses, then grind the rind of the lemons with a meat chopper and add this also to the liquid. Then mix the liquid thoroughly with the poison bran mixture. After an even mixture has thus been obtained, add more water and mix, until a mash is obtained that when squeezed in the hand readily falls apart.

The formula suggested above is the same that is effective in grasshopper

BOSTON—Johnny Sheppard, Woburn bantamweight, won a 10-round decision from Abe Goldstein, bantamweight champion. The title was not at stake as Sheppard came in over weight.

Easy Lessons in AUCTION BRIDGE

Copyright 1933 by HOWLE, JR.

ARTICLE No. 18

The good Auction player is the one who makes his bids mean something definite. That is the secret of good Auction—to convey exact information by the bidding whenever possible. This can be done in the original suit and no-trump bids by following the conventional requirements for each bid. An original suit bid by dealer or second hand should indicate at least two quick tricks, either in the suit bid or one in the suit bid and one outside trick; if the original bid is no-trump, it should indicate at least two quick tricks distributed among three suits. Such bidding gives exact information to partner and keeps him from guessing.

Again, suppose the dealer bids one spade and second hand bids two hearts. The latter bid should indicate at least one quick trick in the heart suit and a possible trick in one of the other suits. Or suppose your partner deals and bids one spade, second hand bids two hearts and you bid two spades. Such a bid should indicate to your partner that you have at least three spades and two or more quick tricks in side suits. These examples are given merely to indicate opportunities of giving exact information. If you fail to give this information when you have the chance, or give incorrect information by incorrect bidding, you are misleading your partner and are sure to get into serious trouble.

One of the most difficult problems of giving exact information by the bidding occurs when one no-trump has been bid on your right and you have a strong hand. Under such conditions your strong suit should not be bid unless you have a fair chance for game. Such a bid gives more information to your opponents than to your partner, as it reveals to them the weak spot of their no-trump and thus gives them a chance to shift to a suit bid that may give them a game not otherwise possible. The old rule was: "Do not bid over a no-trump on right unless your hand is strong enough to rebid without assistance from partner." Under the present system of bidding this rule is not often applied. The informatory doubles are now so popular that if a no-trump is bid on your right and you have a hand as good as an original no-trump, (that is, containing at least two quick tricks distributed among three suits), an informatory double usually gives better results than a bid. There are still hands, however, that should be bid over a no-trump on right. To test out these types of bids, the following hands are submitted. In each case Z is the dealer and has bid one no-trump. A, second hand, holding the cards specified, is required to make a bid.

What should A bid?

: Y B :
: A Z :
: Z B :

Z, dealer, (bids one no-trump)

Hand No. 9

No score. A holds:
Hearts—None
Clubs—None
Diamonds—A, K, 7
Spades—A, K, Q, 9, 7, 6, 5, 4, 3, 2

Hand No. 10

No score. A holds:
Hearts—8
Clubs—None
Diamonds—A, K, Q, 8, 6, 4
Spades—K, 10, 9, 6, 3

In order to get the most benefit from the bidding of the foregoing hands, the writer suggests that the readers select what they consider as A's proper bids and compare results with the writer's opinion which will be published in the next article.

WATCHING THE SCOREBOARD

Yesterday's hero: Ernie Johnson, Yank utility infielder.

He hit two home runs, a double and a single and helped beat Detroit, 8 to 2. The Babe hit his eleventh homer also.

The Reds fell into another piece of bad luck when Fonseca broke his arm sliding and went out of the game for the season. The Cards also beat them, 4 to 3.

Cleveland scored five runs in the

fourth but the Red Sox scored seven in their half and won, 10 to 9.

In a game that went only one hour and twelve minutes, the Athletics beat the Browns 2 to 1.

Helped by the hitting of Joe Judge who got four hits in four trips up for the second successive game, the Senators beat the White Sox, 8 to 2.

Yesterday's Homers.

Ruth, Yanks, 1—11.

Johnson, Yanks, 2—2.

Miller, Athletics, 1—2.

Myatt, Indians, 1—1.

UNITED STATES TIRES ARE GOOD TIRES

Well Shod Motors

IN addition to outstanding advantages in service—Royal Cord Tires add to the appearance of any car.

These long-wearing, handsome tires never seem to look down at the heel—no matter how far they have gone.

Part of this is due to their perfectly balanced construction and part to the use of latex treated cords. This new patented latex treatment is a major contribution on the part of the makers of

Royal Cords to better tire service. It is the outstanding tire development of today.

You get the benefit of it in all Royal Cord Tires whether you buy the standard high-pressure type—the full Balloon for 20, 21 and 22 inch rims or Royal Cord Balloon-Type Tires built to fit present wheels and rims.

Consult your dealer about the type for your car but insist on Royal Cords.

United States Rubber Company

U. S. Tires are the only tires in the world made of cords solutioned in rubber latex.

MEXIA LOSES IN EIGHTH WHEN MARLIN RUNS IN TWO

Pounding Hill's deliveries for three two baggers in a row Marlin took the second game here with Mexia Monday afternoon by the score of 3 to 2. Hill pitched a mighty good game until the eighth when four hits and two runs snatched victory from his grasp. Up until that fatal inning the game had stood one to nothing in favor of the home club and it looked as if the veteran Gusher moundsman had added another feather to his cap. But the three two baggers lined out with heart-breaking regularity through centerfield spelled defeat and no amount of desperate hitting on the part of the Gushers could dissipate the gloom which settled upon them with the loss of a victory which was so near theirs.

From beginning to end the game was interesting. There were few errors, Marlin getting credit for two and Mexia making one, and sensational fielding on the part of the Gusher outfield often brought the small crowd of fans present to their feet with loud cheering. Marlin obtained eight hits off Hill while Meeks for Marlin held the Gushers to only four.

| MARION DAVIES' CAREER | | | | |
|---|--|--|--|--|
| SERIES OF SUCCESSSES | | | | |
| Marion Davies, the twenty-three-year-old star of Cosmopolitan productions, was born in Brooklyn, the daughter of Judge and Mrs. Bernard Douras. She attended the Brooklyn grammar school and then entered a convent in New York City, specializing in dramatic arts, French literature and music. She was an apt pupil and several times completed in one year the regular studies of two. She left school when very young, being drawn to the stage. Living at home with her parents, she did not have the struggles nor hardships which many girls undergo. From the "Chin Chin" chorus she was chosen by several producers who wanted her in musical comedies and was cast in "Oh, Boy!" | | | | |
| When Harrison Fisher asked Miss Davies to pose for his delightful study, "Morning," there followed universal acknowledgment that hers was | | | | |
| Temple.....003 000 200—5 | | | | |

E. M. STRANGE

Hurdleston Hotel Bldg.
Mexia, Texas

BERLIN.—Chancellor Marx has gone into the poultry business on a small scale. The huge garden of the Chancellery has been converted into a miniature chicken farm.

After her appearance in "Oh, Boy!" Miss Davies was chosen for the Ziegfeld "Follies" and from there she went into pictures. She has made over a dozen pictures, all of them Cosmopolitan productions. Her wonderful interpretation of Princess Mary Tudor in "When Knighthood Was in Flower" brought her praise from all over the world and gave her undisputed place as one of the best screen stars of the day. Her grip on stardom has been further strengthened by her portrayal of "Pat O'Day" in "Little Old New York," directed by Sidney Olcott from Rida Johnson Young's stage play. It will be the attraction at the National Theatre today and tomorrow.

NEW HAVEN, Conn.—Professor Charles Edward A. Winslow, chairman of the Department of Public Health of the Yale School of Medicine, and Professor Ira V. Hiscock, also of the department, are in Minneapolis, Minn., where they have been invited by the Council of Social Agencies to make a study of the health machinery of the city. The survey is being conducted in

general accord with the program of the Committee of Municipal Health Department Practice of the American Public Health Association, of which Professor Winslow is the chairman.

Often when the wolf comes around to the door, says —, he finds the family out driving in an automobile.

MEXIA LOSES IN EIGHTH WHEN MARLIN RUNS IN TWO

Pounding Hill's deliveries for three two baggers in a row Marlin took the second game here with Mexia Monday afternoon by the score of 3 to 2. Hill pitched a mighty good game until the eighth when four hits and two runs snatched victory from his grasp. Up until that fatal inning the game had stood one to nothing in favor of the home club and it looked as if the veteran Gusher moundman had added another feather to his cap. But the three two baggers lined out with heart-breaking regularity through centerfield spelled defeat and no amount of desperate hitting on the part of the Gushers could dissipate the gloom which settled upon them with the loss of a victory which was so near theirs.

From beginning to end the game was interesting. There were few errors, Marlin getting credit for two and Mexia making one, and sensational fielding on the part of the Gusher outfield often brought the small crowd of fans present to their feet with loud cheering. Marlin obtained eight hits off Hill while Meeks for Marlin held the Gushers to only four.

MARION DAVIES' CAREER SERIES OF SUCCESSSES

Marion Davies, the twenty-three-year-old star of Cosmopolitan productions, was born in Brooklyn, the daughter of Judge and Mrs. Bernard Douras. She attended the Brooklyn grammar school and then entered a convent in New York City, specializing in dramatic arts, French literature and music. She was an apt pupil and several times completed in one year the regular studies of two. She left school when very young, being drawn to the stage. Living at home with her parents, she did not have the struggles nor hardships which many girls undergo. From the "Chin Chin" chorus she was chosen by several producers who wanted her in musical comedies and was cast in "Oh, Boy!"

When Harrison Fisher asked Miss Davies to pose for his delightful study, "Morning," there followed universal acknowledgment that hers was

CHANCELLOR'S CHICKEN FARM

BERLIN.—Chancellor Marx has gone into the poultry business on a small scale. The huge garden of the Chancellory has been converted into a miniature chicken farm.

an extraordinary loveliness. Since that time the celebrated star has posed for the best artists in the country, including Howard Chandler Christy, W. T. Benda, Frank X. Leyendecker, Carl Link, Penrhyn Stanlaws and others.

After her appearance in "Oh, Boy!" Miss Davies was chosen for the Ziegfeld "Follies" and from there she went into pictures. She has made over a dozen pictures, all of them Cosmopolitan productions. Her wonderful interpretation of Princess Mary Tudor in "When Knighthood Was in Flower" brought her praise from all over the world and gave her undisputed place as one of the best screen stars of the day. Her grip on stardom has been further strengthened by her portrayal of "Pat O'Day" in "Little Old New York," directed by Sidney Olcott from Rida Johnson Young's stage play. It will be the attraction at the National Theatre today and tomorrow.

TO MAKE HEALTH SURVEY

NEW HAVEN, Conn.—Professor Charles Edward A. Winslow, chairman of the Department of Public Health of the Yale School of Medicine, and Professor Ira V. Hiscock, also of the department, are in Minneapolis, Minn., where they have been invited by the Council of Social Agencies to make a study of the health machinery of the city. The survey is being conducted in

general accord with the program of the Committee of Municipal Health Department Practices of the American Public Health Association, of which Professor Winslow is the chairman.

Often when the wolf comes around to the door, says —, he finds the family out driving in an automobile.

COULDN'T GAIN DEATH

PARIS.—Disappointed in love, a sergeant-mechanic at the aviation field at Tryoes, Aube, sought to fly into a better life. He got his wings by appropriating a Government airplane—but he had not learned to fly. The machine under full "gun" tore wildly along the ground for some distance and then tumbled over in a complete wreck. The sergeant was only slightly injured. He will be court-martialed for damaging army property. He said his plan was to rise among the clouds and then end his life by crashing to earth.

Look--Mr. Farmer

Is Your Growing Crop of Grain Insured Against Loss by

HARTFORD FIRE INSURANCE CO.

has stood between its patrons and adversity, paying every honest loss dollar for dollar. A Hail Policy in the Hartford may save your entire year's labor.

IS BACKED BY THE HONORABLE RECORD OF MORE THAN A CENTURY AND CASH ASSETS OF OVER

SIXTY-SEVEN MILLION DOLLARS

BE SAEER RATHER THAN SORRY

A STRAIGHT BUSINESS PROPOSITION

Spend a minute or two considering the matter of Hail Insurance—what it can do for you—how much it will cost—and just what sort of an investment you are making in buying a Hartford Hail Insurance Policy. First of all, what happens if a serious hail storm comes and wipes out your crop? You lose every dollar that has gone into seed—fertilizer—labor—machinery—and all of the miscellaneous items that add to the costs of production. In addition you lose the profits that your crop should have earned.

Can you afford such a loss? Have you a reserve fund that will cover the emergency?

If NOT, a hail loss will be a staggering blow.

You may have funds deposited in a bank, that will help fill the gap caused by your loss, but you are robbing your savings account when you use them.

IT DOESN'T PAY TO TAKE CHANCES

For a relatively small sum you can buy, not only certain protection in case of loss, but what is an even greater satisfaction—peace of mind.

When you order a Hartford policy through this agency, you are insuring in a company that has, since 1810, paid over \$300,000,000 in insurance losses and that has never failed to make good every honest claim.

At a word from you, the policy will be written and delivered to you without delay.

MEXIA—

STORY of CYNTHIA ANN PARKER IS ALMOST LIKE FICTION

Cynthia Ann Parker, 9 years old, and her little brother, John Parker, aged 6, years, children of Silas M. Parker, were captured by raiding Comanche and Kiowa Indians, on May 18, 1836, after the capture of Parker's fort, located on the west side of the Navasota creek near the present site of Groesbeck. There were only eight or nine families in the colony that occupied the fort and the Indians, artfully feigning the treacherous semblance of friendship, pretending they were looking for a suitable camping place, asked about the locality of a water hole. The tragedy was soon enacted and Cynthia Ann Parker and her brother, John, were taken away by the savage Indians, after the massacre of the members of the colony who were present at the time and those who did not escape, some being left for dead that survived their ill treatment. Other prisoners were taken away at the same time and from time to time the captives were returned to their homes.

Was Left to Die.

For nearly five years no trace of Cynthia Ann and her brother were found. The brother and sister were separated and gradually they forgot the language, manners and customs of their people. John grew up as an Indian, and was one of a raiding party that went into old Mexico, where a pretty Mexican maid was captured and brought away on return of the Indians. John Parker fell ill and the Indians left him out on the Staked Plains. The girl had fallen in with him, refused to leave him, and she too was left to die. John recovered and the couple were married at Eden, and settled on a ranch near the Rio Grande. John served in the Confederate army and made a record as a gallant soldier.

In 1840 Col. Lew Williams, Mr. Stout and an Indian guide fell in with a band of Comanche Indians on the Canadian river and it was found that Cynthia Ann was with the tribe and who, from the day of her capture, had not seen a white person. She was then about 11 years old and had been with the Indians about five years.

Became Bride of Chief.

As the years rolled by she developed the charms of womanhood and she brought many young braves to her shrine. Cynthia Ann became the wife of Peta Nocona, a Comanche warrior, and she bore him numbers of children, performing for her lord all the slavish offices which savagery of Indian customs assign as the duty of a wife. Some 15 years afterwards a party of white hunters visited the Comanche encampment and sought to secure her consent to return to her people. She shook her head, pointed to her little naked children playing about her feet and to the great greasy Indian sleeping in the shade of a tree with scores of scalps dangling at his belt.

In 1858 in a battle fought on the South Canadian or Antelope Hills, Peta Nocona, husband of Cynthia Ann, was second in command of the Comanches.

War on Comanches

About May 1, Col. John S. Ford, at the head of 100 Texas rangers, with such leaders as Capt. S. P. Ross, W. A. Pitts and Preston Tarkenton, and 111 Toncawue Indians commanded by a celebrated chief, Placido, marched against the Comanches. Placido claimed for his warriors the privilege of wreaking vengeance upon old enemies. Not a single Comanche brave surrendered, not a single warrior escaped, they preferred death to the humiliation of restraint in captivity.

The Comanches renewed hostilities during the summer of 1858, and on Oct. 2 the Texans located the Comanches, and Captain Ross with his Indian soldiers slipped upon them and drove off their horses leaving them about to fight. A few minutes after the fight started Comanches were found running and in the severe fighting Captain Ross was severely wounded, brought back home and recovered.

In 1859-60 the frontier was again in a turmoil and deplorable conditions prevailed and the people were in a position of defence. In 1860 Peta Nocona with a girl behind him on a horse, in an effort to escape from the battle at Pense river, was chased by Captain Ross who shot the girl off the back of the horse, she dragging Nocona to the ground with her. Captain Ross thought she was a brave, he lay covered with a blanket. After Peta Nocona was dismounted Captain

HOME DRESSMAKING

By JEANNE ROLAND
(Copyright 1934 by Pen-Art Service, Inc.)

Fashion is Using the New Ribbons

Figured Vols in Individual Design
Numerous are the touches which one may give to inexpensive fabrics to impart to them the charm of imported models. The use of pleating and ribbon in the decorative scheme of this dress is unusually effective.

The season's cottons, and especially the volles, are so original in their coloring and design, that one

hesitates to bedim the glory of the material with the trimming that adorns it. Decorations should rather heighten the beauty of the fabric. Here, a straightline frock has the skirt slashed into narrow panels which are rounded away at the lower edge and pleated with silk in the predominating color of the figures in the volles. Three and one-half yards of material 36 inches wide are needed for the dress.

Pleating also finishes the edge of the round neck and the short sleeves. There come many very narrow braids and ribbons which may be set along the edges of panels, neckline, etc., that have the same effect as pleating and do not require as much work.

The waist is finished with a very narrow ribbon belt, far more conspicuous in its ending than in its real service. The bow is finished under an enticing rosette, which is very easily made. First determine the

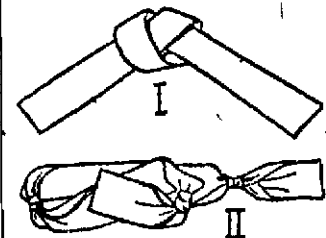

Fig. I—Loop of desired length with knot in center.

Fig. II—Loops folded and arranged for rosette.

length that the loops are desired to be, then place a knot in the center of each loop, Fig. I. The loops are then folded and placed alternately to the right and to the left and tied with a knot in the center, Fig. II. The ends are knotted at intervals, as shown in the illustration. If desired, the dress may be built over a colored slip which shows as the panels away with the motion of the figure.

Ross shot him and broke his right arm, shooting him two more times in the body. The chief went back and sat down under a tree, shooting arrows at Captain Ross whose pistol was now empty.

Boy Gets Revenge.

A Mexican boy who carried an extra gun for Captain Ross came up and when he saw who it was he begged for permission to shoot him, declaring that Nocona had killed his entire family. He was granted the privilege and with a double-barrel shot-gun in readiness walked over to Nocona and talked briefly in Mexican with the Indian chief, who was even then dying from mortal wounds. He tore open his shirt and bared his breast. The Mexican boy then shot and killed him, this being the end of life for Cynthia Ann's husband.

At the same time that Nocona fled with the 15-year-old girl behind him Cynthia Ann with a girl child about two years of age in her arms, mounted on a fleet pony and fled. Lieut. Tom Kelliher caught up with Cynthia Ann and brought her and the baby back, remarking that she was only a squaw. Captain Ross looked at her and remarked, "Why, Tom, this is a white woman." When Cynthia Ann was taken away she left behind her on the field of battle her two small sons, Quannah Parker, who after reaching manhood was made chief of the Comanche tribe.

Cynthia Ann Parker was in the hands of the Indians from May 18, 1836, to Dec. 18, 1860, 24 years and seven months and she was nine years old when she was taken into captivity, taking on all the manners and custom of the Indians among whom she was raised.

She was brought back to the vicinity of her early childhood and made several attempts at escape so that she might return to the Indians and had to be closely watched until she found that she was with friends. An uncle who lived in Parker county was sent for and positive and final identification was made that settled the question of her identity.

In time she learned her language over again and she was living with her brothers in Anderson county when she died in 1861, preceded a short time by her daughter, Prairie Flower.

Quannah Parker was born in 1851 and was raised to the position of chief of the Comanche tribe many years ago.

For the information contained in this brief story the News is indebted to Clint Padgett, who has a history of the massacre of the settlers at Parker's fort and the life of Cynthia Ann Parker and the Indian wars of the years prior to the Civil war.

Famous Last Words—"Watch me pass him at the next corner."

THE INFANT PRODIGY

The overnight development of the radio industry, even in a swiftly moving world, is one of the commercial romances of this century. Within the span of a little more than four years the ranks of the manufacturers, composed chiefly of those who had aided the army and navy during the war in the creation of the wireless telephone, have grown from a group of about fifty pioneers into an army of more than 3,000. Sales of radio material in 1920 amounted to a bare \$1,000,000. It is estimated that the American public during the past year spent at least \$150,000,000 in acquiring sets and parts of the instruments that tapped the ether. The strides that the industry is making may be indicated by the

statement that expenditures for research by one of the large manufacturing groups during the next year will exceed the amount of the total sales just four years ago.

The industry is so new that the Government has been unable to take a census to determine its rank or proportions. Congress has not had time to frame legislation regulating it. Its past events have been kaleidoscopic, and the industry now is described by some as in a state of flux, although there are growing indications that it will settle down. For, with the changing phases, there is a distinct movement in the direction of standardization.—American Bankers Association Journal.

RIG FIGHT SPECTACLE IN "LITTLE OLD NEW YORK"

One of the most spectacular scenes ever filmed in motion pictures is the big mob scene in the Cosmopolitan picture, "Little Old New York," starring Marion Davies, now playing at the National Theatre today and tomorrow. Miss Davies, swung on the shoulder of big Louis Wolheim, is rushed through a mob of a thousand howling men to the whipping-post to receive the punishment which the crowd demands because she rang the firebell and stopped the prizefight.

The scene occurs in the streets surrounding Bowling Green and the Battery of New York as they appeared a century ago. Over sixty thousand feet of floor space was covered by the pounding feet of the mob and fifty-five immense searchlight arch lights shot down a brilliance which rivaled the sun and made it appear as though it were really out doors. Director Sidney Olcott and his assistant, Saul Harrison, shouted themselves hoarse directing the great mob which followed Wolheim down the streets. The slender little figure of Miss Davies, perched on the shoulder of Wolheim as she is hurried to her doom is silhouetted against the sky above the heads of the crowd.

Cameramen cranked madly as the mob swirled around the platform upon which the whipping-post was stationed. The cruel, avenging faces of the mob; the huge, brutal appearance of Wolheim as contrasted with the fair, fragile delicacy of Miss Davies as she is lashed to the whipping-post—all combine to make of the scene a most thrilling one. Refusing to employ a "double," Miss Davies insisted on taking the lashes inflicted by the cruel whip herself. The star insisted it would make the picture much better if she took the lashing herself. As a result the beautiful shoulders which have been painted by some of the most famous artists in the land, still bear the marks of the cruel blacksnake whip. Although Wolheim tried to lay on the lashes as lightly as he could and still register the proper effect it was impossible to spare the dainty little star entirely.

Director Sidney Olcott, cameramen, mechanics and electricians alike, were loud in their praise of Miss Davies' fertility in the interests of art. The resulting scene caused a sensation in New York. It was only the day previous to the whipping that Miss Davies fell from Wolheim's shoulders when the latter tripped. She was knocked unconscious for several minutes, but insisted on going on with the scene.

CANDIDATES Announcements 1924 ELECTIONS

LIMESTONE COUNTY

The following candidates for the offices named submit their names subject to the action of the Democratic primary election to be held in Limestone county on the 20th day of July, 1924:

For Governor—

MUCH INTEREST IS EVIDENT IN STATE MEET TODAY

The delegates elected from Limestone county Democratic convention on May 8, to the State convention now in session at Waco are as follows:

Groesbeck: Ed Allen, E. G. Lloyd, J. E. Bradley, L. M. Sany, Mrs. C. D. Oliver, Carl Canno, W. C. Wolverton, Scott Reed.

Mexia: Ben B. Hunt, G. W. Perkins, A. H. Berry, Dr. R. B. Jackson, W. M. White, R. M. Andrews, A. G. Adair, L. S. Suttle, J. D. Arrington, N. P. Hous, G. A. Walters, Mrs. Geo. M. Tidwell, Mrs. J. D. Arrington, O. F. Watkins, L. W. Keys, R. D. Morgan, E. J. Hitt.

Tehuacana: Henry Unfried, F. H. Rankin, Mrs. W. W. Jackson.

Fallout: T. B. Walker.

Shiloh: J. R. Sellers.

Odessa: T. J. Richardson.

Personville: A. B. Grider and Gene Calvary.

Kosae: Joe Curry, Dr. J. H. Mitchell, T. A. Griffin, W. L. Forbes.

Thornton: C. A. Bates, E. L. Gidden, Miss Virginia Bedford.

Farrar: T. B. Mills.

Elm Ridge: J. L. Dinkard.

Codding: T. L. Satterwhite, Ed Cox, Mrs. E. H. Hill.

Forest Glade: W. L. Dorsett.

Kirk: J. T. McLendon, C. W. Cox, Ben Hurr, Clyde Gant.

Frost: Homer Webb.

Watt: C. W. Moody.

Della: W. B. Herring, E. H. Hitt.

Munger: W. C. Wilson, T. J. Cole.

PARIS.—The first temptation for Olympic athletes in Paris is the so-called "vice of honor," a flowing goblet of champagne, offered by the official reception department of the Olympic Committee.

The idea is to brighten the greeting and make the muscular guests feel at home. It is not denied French athletes, their training, but what can Coach Robertson do when the bubbling bottle (or bottles) is broken in honor of the Americans? Will it be diplomatic for him to shun the honor and ask for water? And if he doesn't want of his training rules?

But perhaps the committee members will be tolerant. They are kept hustling greeting the many different groups that arrive daily, and some days they feel that enough is enough, however, good the champagne.

Three more Gushers were given releases Monday night. They were Peel, McDowell and Schiffer.

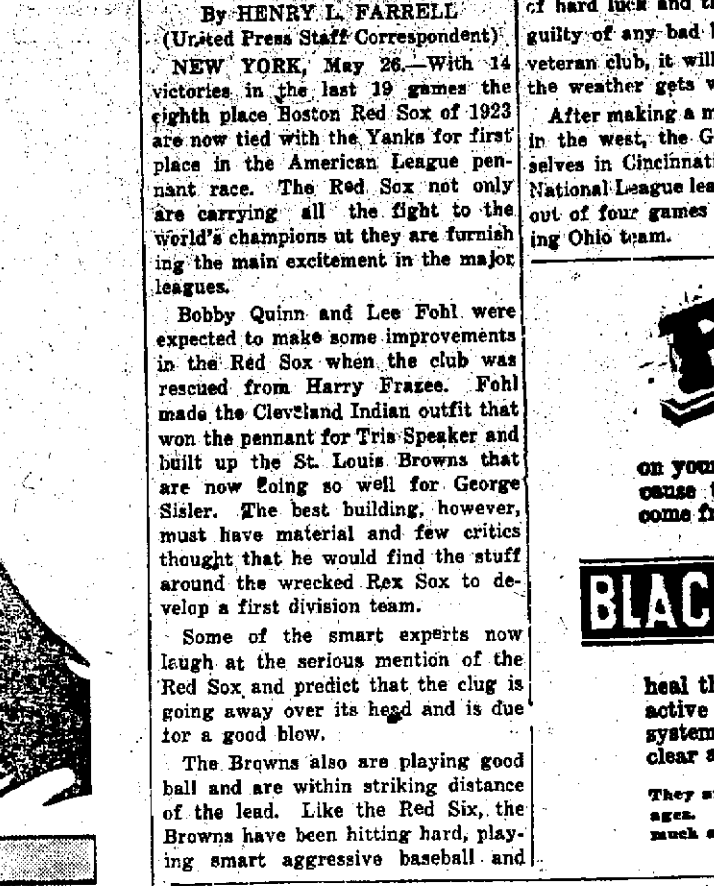

Epitaph: "He didn't have time to stop at the crossing; he has plenty of leisure now."

Mustang: H. H. Alexander.

A large number of the members of the Limestone delegation left Monday afternoon in order to be on hand in plenty of time for the opening of the convention Tuesday. Quite a number, however, on account of pressing business remained over until early Tuesday morning going to Waco by auto. Much interest is being shown in the performance of the important duty which faces the State convention today and almost all the delegates elected from this county are in attendance.

HE NEVER CAME BACK

DALLAS, Texas, May 23.—One negro bell hop at the Adolphus hotel is a few tints lighter as the result of the Texas Funeral Directors association convention which was held in the hotel. One of the delegates asked the boy to get some laundry from one of the carpet display rooms at the hotel. The boy took one look and saw a large black coffin in the darkened room. Neither the boy nor the laundry returned.

Red Sox Are Going Up Line

By HENRY L. FARRELL (United Press Staff Correspondent). NEW YORK, May 26.—With 14 victories in the last 19 games the eighth place Boston Red Sox of 1923 are now tied with the Yanks for first place in the American League pennant race. The Red Sox not only are carrying all the fight to the world's champions at they are furnishing the main excitement in the major leagues.

Bobby Quinn and Lee Fohl were expected to make some improvements in the Red Sox when the club was rescued from Harry Frazee. Fohl made the Cleveland Indian outfit that won the pennant for Tris Speaker and built up the St. Louis Browns that are now going so well for George Siders. The best building, however, must have material and few critics thought that he would find the stuff around the wrecked Red Sox to develop a first division team.

Some of the smart experts now laugh at the serious mention of the Red Sox and predict that the club is going away over its head and is due for a good blow.

The Browns also are playing good ball and are within striking distance of the lead. Like the Red Sox, the Browns have been hitting hard, playing smart aggressive baseball and

END-OF-MONTH SALE Specials

Karnak is a purely vegetable medicine of remarkable purity and wonderful efficiency in the treatment of stomach and digestive troubles, weakness, nervousness, rheumatism caused by digestive troubles, sour stomach, fatigue, constipation, loss of appetite, torpid liver, constipation, gassiness, auto-intoxication, dyspepsia, indigestion, mal-nutrition, a generally weak, run-down condition and a host of other symptoms and complaints not generally recognized as having

RESULTS FROM KARNAK ARE GUARANTEED

**President Thorburn, of
Karnak Company, Issues
Statement to
Public.**

Karnak is sold under a strict guarantee that the first bottle will produce beneficial results or the purchase price will be refunded without question. Both the manufacturers and the local distributors stand squarely behind this guarantee.

This policy was announced by Mr. H. C. Thorburn, President of Drug Products, Incorporated.

Substantiates Claims

Mr. Thorburn first expressed his sincere appreciation of the interest and enthusiastic support given his Company by leading citizens here, who were interested in securing Karnak for this city. "This shows", said Mr. Thorburn, "that you citizens are anxious to try M. Andre's new discovery, and it is a privilege to tell the public that every bottle of the medicine will be sold under a strict guarantee. We want them to know that we always have and always will substantiate every claim made for Karnak."

"Our guarantee amounts simply to this: Any one who purchases a bottle of Karnak and is not benefited by it may get their money back without question."

"The great reputation of Karnak is founded on results—nothing else. People buy the medicine because of the great benefits they receive from its use. Thousands have written thanking us for the splendid results they get from it. A trial quickly shows that Karnak is a different and a better medicine. M. Andre gave to it distinctive characteristics which place it in a class by itself, and it is not to be confused with other medicines."

Has Stood Test

"Karnak is manufactured by one of America's oldest, largest and most reputable pharmaceutical houses, which subjected M. Andre's discovery to the most prolonged and searching scientific tests. These tests proved its restorative power to be little short of astonishing. Then our own company undertook a long series of tests under conditions of actual usage which confirmed in every detail the results announced by the pharmaceutical laboratories. Since then Karnak has achieved phenomenal success in the hands of the people everywhere it has been introduced. These are among the many underlying conditions which make it possible for us to offer such an unusual and unqualified guarantee."—Adv.)

M. PIERRE ANDRE
Discoverer of Karnak

their origin in stomach, abdominal and digestive derangements. As a general health-builder and strength restorative Karnak has become the sensation of the drug trade everywhere it has been introduced.

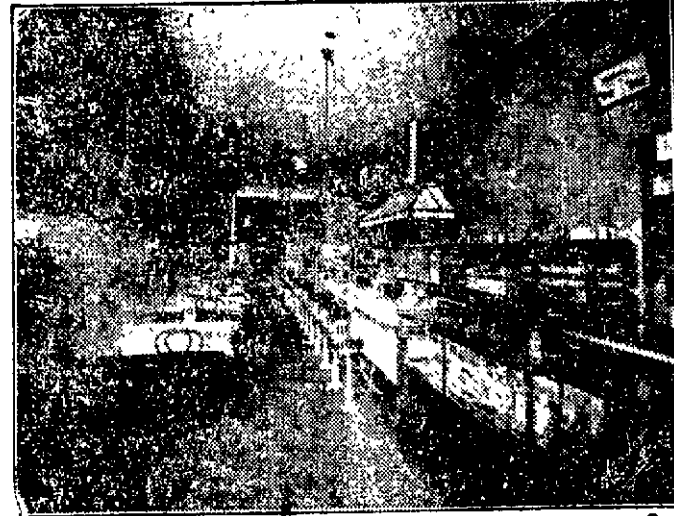

The action of Karnak is so natural and beneficial that it has won the name of "the master health-builder." It increases the appetite for wholesome food and helps the digestion turn this food into strengthening nourishment which builds up firm flesh and strong muscular tissue; it strengthens the organs of elimination, purifies the blood stream and builds up the whole body in tone, vigor and vitality.

Those wishing to regain their former robust health or build up their strength and stamina should not fail to avail themselves of this remarkable medicine.

The management at the Mexico Drug Co. was enthusiastic over having won the Karnak agency. "We are simply elated," it was said. "Mr. Andre's famous preparation is of such wonderful merit and reputation that for us to comment on it would be superfluous. It has met with sensational success everywhere and will be sold by us under the strict guarantee that if the first bottle does not produce substantial benefits the purchase price will be refunded. This shows the unlimited confidence of both the manufacturers and ourselves in Karnak. It is unnecessary to say more."

NOTICE TO DRUGGISTS

Special Advertisements for Karnak are being established as rapidly as production will permit. For details write or wire

Arrest Made In Franks Boy Murder In Chicago PEACE PREVAILS TODAY AT WACO CONVENTION

WAITER SUSPECT WITH FOREIGN NAME WAS HELD

CHICAGO, May 27.—Adolph Popritz, a waiter, answering to the general description of "George Johnson" sought for the murder of Robert Franks, the millionaire's son, was arrested. A gray automobile, answering the description of the one in which Robert was kidnaped, was taken with Popritz.

Scores of police officers, armed with picks and shovels and working in little squads, today started digging operations in an effort to recover the clothing stripped from the body of Robert Franks, 14, kidnaped and murdered here last week. So far the hundreds of policemen and detectives assigned to the case have been unable to find a tangible clue to the slayers.

Chief of Police Collins ordered his men to dig up a sewer near the home of Mott Kirk Mitchell, 52, an instructor at the Harvard Private School, attended by Robert. Mitchell has been held by police since last Thursday, and has admitted to psychopathic tendencies.

One of the theories of police is that Robert was the victim of perverts. Chief of Detectives Hughes has not abandoned that theory, although he is inclined to think that ransom was the real motive for the kidnaping.

Chief of Police Collins said today he would start digging operations at the barrens, where Robert's body was found. A body of water in the same vicinity will be fished on the theory that the boy's clothing was weighed with rocks and thrown in.

The barrens have been raked and the debris carefully examined but nothing tangible was found.

Detectives made a number of mysterious visits to loop hotels during the night. They visited at least four hotels, questioned several persons and finally wound up at one of the biggest hostilities outside the Loop, where a temporary "crime headquarters" was established.

"All of the 'mysterious' cars" picked up by police in the hunt for the machine used in spiriting Roberts away have been released.

Scores of tips are coming in hourly. One man reported seeing two women digging up the ground near where the body was found; another man saw digging operations by suspicious persons in another section of the city. All tips are being followed in the hope of hearing a tangible clue.

MARX WILL FORM NEW GERMAN CABINET

BERLIN, May 27.—President Ebert at 5 p. m. today commissioned Chancellor Marx to form a new Cabinet, replacing that which resigned last night.

Other leaders had been consulted by the President and had proved unable to assume the Chancellorship.

By CARL D. GROAT
(United Press Staff Correspondent)
BERLIN, May 27.—Resurrection of the Marx Cabinet with some changes from the old is anticipated as an immediate development in the German political situation. Many believed the Chancellor would have his new Cabinet ready in time to appear at the opening of the Reichstag in mid-afternoon.

Marx and his ministers resigned last night but were requested to carry on current affairs. The program called for inviting Herr Hertig, Nationalist leader, to form a Cabinet perhaps even Herr Mueller, the Socialist leader. It was assumed these leaders would fail, where after President Ebert would invite Marx to reform the old Cabinet and with a few changes Germany would be back where she started.

The Reichstag was to open this afternoon with nothing more important scheduled for the first days than the selection of a president for that body. The Nationalists claim

CHIEF FIGURES IN NEWS SPOTLIGHT.

Above: HOWARD CARTER & MENT PELLETIER D'OLISY
Below: THOMAS S. BUTLER & ISADORA DUNCAN

A new airplane will be sent from Paris to Shanghai if Captain Pelletier d'Olisy, French air ace, who crashed there, desires to continue his flight to Tokyo. Howard Carter, American co-discoverer of the tomb of King Tut-ankh-Amen, has settled his differences with the Egyptian Government, and will continue next year to explore the tomb, but will leave the King's body there, untouched. Declaring the American Navy has fallen behind that of Great Britain, Representative Thomas S. Butler, of Pennsylvania, chairman of the Naval Affairs Committee of the House, asked for the construction of eight scout cruisers, six gunboats and the modernization of six battleships. Isadora Duncan, famous American dancer, narrowly escaped death when her automobile was ditched near Petrograd, Russia. She was knocked senseless and received injuries about the head and face.

TWO AMERICANS ARE REPORTED KILLED IN CHINA

PEKIN, May 27.—Two unnamed American missionaries are reported to have been killed at Kweilin, Kwangai, when Northern troops besieged that city May 8.

The report, which is unconfirmed, reached the American legation here today from the consulate at Canton.

Occupants of the Kweilin mission were Miss M. Coppett, Miss E. M. MacDougal, Miss N. E. Jones, Joseph Cunningham and his wife and a Miss Alvarson. They represented the Christian and Mission Alliance, headquarters New York.

With Babe Ruth at Bat.
First inning—Eleventh homer in left field stands.

Third inning—Flied to left.
Fifth inning—Walked.
Seventh inning—Doubled to right.

Learn To Preach And Select Your own Denomination

DALLAS, Texas, May 27.—A theological seminary without demonological relationship has been announced as an addition to theological training schools, by Dr. Lewis Sperry, Chafer, pastor of the Schofield Memorial church, and Dr. W. M. Anderson, pastor of the First Presbyterian church.

The two ministers are president and vice president of the training of ministers to enter the ranks of any denomination on a groundwork of sound and approved teaching of the Bible as the inspired word of God, as well as a full and thorough going theological training.

It is not intended that the college be the arguments of the controversy inclined of any denomination or particular school of thought, but it is meant to teach the fundamentals of Christianity without sectarian influence.

Famous Last Words—"Watch me pass him at the next corner."

CITIZENS TO VOTE ON NEW CHARTER JULY THE SEVENTH

A meeting of the City Commission was held in the city hall Tuesday morning at eleven o'clock for the purpose of calling an election for the new charter drawn up by the Charter Commission and recently submitted to the city. The date for the election was set for the 7th of July.

Previous to the election copies of the new charter as drawn up by the Commission will be printed and submitted to each voter in the city. Thirty days at least will be allowed the voters for a thorough study of

the new instrument before the date set to vote upon it. It is undecided as yet in just what form it will be printed, whether in the local newspaper or in separate pamphlet form, but the city commission stated that every effort will be made to place a copy in the hands of each and every voter in order that each and every one may be able to give the charter a thorough consideration before making a decision either for or against it.

DEATH GETS TOLL OF SIX MEN IN BURNING HOTEL

NEW YORK, May 27.—The bodies of six men were found in the ruins of the Mills hotel, which was swept by fire. More than 100 men were asleep in the hotel when the flames burst out. Only a part of them have been accounted for.

EARLY ACTION ON NEW TAX BILL INDICATED

WASHINGTON, May 27.—Early action by President Coolidge on the new tax bill was indicated by those close to him today.

All parties at the Capitol expect the President to sign it. The convincing way in which the measure was endorsed in both House and Senate, coupled with a statement from Secretary Mellon's office that he would not recommend a veto, caused leaders to believe Mr. Coolidge would not fail to accept it.

The Treasury Department, to which the President referred the measure last night for a report on its effect on the national revenues, will deliver its statement to him late today or tomorrow.

Mr. Coolidge who has been studying the provisions of the bill since the conferees agreed on its final form, it is not expected to delay his decision on it. He has until midnight, June 7, to act. If Congress adjourns before that hour and the bill is not acted on, it dies by a "pocket veto," if it is still in session, then the unacted bill would become a law.

NORRIS FAVORED FOR OWNERSHIP OF MUSCLE SHOALS

WASHINGTON, May 27.—The Senate Agriculture Committee favorably reported the Norris Government Ownership plan for Muscle Shoals. The motion to report the Ford plan favorably was defeated. The fight now goes to the floor of the Senate, where Ford's plan and possibly others, will be offered as substitutes.

World's Tennis Champ Is Sick

LONDON, May 27.—With reports from Nice that Suzanne Lenglen, world's tennis champion, is seriously ill, tennis experts agree that Miss Helen Wills, American champion, will run away with the Olympic championship.

London papers comment that "only a Lenglen, playing a perfect Lenglen game, could beat the American champion."

The correspondent of The Mail wrote today that the French girl has lost so much weight at Nice that she is hardly recognizable, that she looks incapable of holding a racquet and that she cannot hope to play again until she has had a long rest. He expressed the opinion that it would be physically impossible for her to play this summer.

Mrs. Molla Mallory, former American champion, arrived here today. She is to play with the American team in the Wightman cup matches at Wimbledon.

Mrs. John Poindexter and little son, of Crockett, are the guests of Mrs. Poindexter's mother, Mrs. Charles Alderman, of East Commerce, this week.

McCormick May Become Envoy to Japan.

U. S. Senator Medill McCormick, of Illinois, defeated for renomination in the recent primaries, is mentioned as President Coolidge's choice to succeed Cyrus E. Woods as American Ambassador to Japan.

WEST CHAIRMAN OF REPUBLICAN CONVENTION AT DALLAS

DALLAS, Texas, May 27.—The State Republican convention with 600 delegates present, completed its organization and is ready to elect delegates to the national convention this afternoon. W. S. West of Brownsville is permanent chairman. The morning session was harmonious with the steam roller working smoothly.

Boy Confesses To Murder Of Teacher

ELLSWORTH, Maine, May 27.—Roland MacDonald, overgrown 15-year-old school boy, was held here in jail today after confessing to the brutal murder of his teacher, Louise Gerrish, 19.

The boy shot and killed the girl with a charge of buckshot, took her rings and watch and buried the body in a shallow grave.

His 13-year-old brother is held as a material witness.

ST. ANDREWS, Scotland, May 27.—Francis Brown, Honolulu, the lone American entry in the British amateur golf championship tournament, won his first match today by defeating Allen Graham, 2 and 1.

LIMESTONE CO. STANDS BY ITS INSTRUCTIONS IN CAUCUS

(SPECIAL TO THE NEWS)
WACO, Texas, May 27.—Peace prevailed at the morning session of the State democratic convention.

Amid much confusion district caucuses were held.

The 6th congressional caucus endorsed W. C. Davis of Bryan and Jackson of Hill county as delegates, and E. O. Tatum of Wortham as one of the alternates. Judge J. E. Bradley of Groesbeck received the vote of Limestone county on every ballot.

Freestone county offered the name of A. Garland Adair and on several ballots he received 34½ votes of the 70 to elect. Limestone delegates did not vote on any ballot for Adair.

Judge Davis was rushed in as a dark horse and won with the Hill county man.

The convention meets again at 3 for the business of the session.

WACO, Texas, May 27.—A bitter fight to determine whether or not Governor Pat Neff is to be permitted to go to the New York national Democratic convention as a delegate at large loomed, as the State Democratic convention convened here today.

Eleventh hour efforts at a compromise by which the Governor would be included in the delegation apparently failed, and early today it was reported the Dallas delegation would lead the fight against Neff. The Dallas delegates were instructed to oppose Neff as a delegate by the county convention. Thomas B. Love, national committeeman, declared he would oppose Neff to the finish.

Plans were made for Mike T. Lively and Alex Poe of Dallas to take the floor against Neff if the committee on delegates recommended the Governor as one of the delegation.

Love came out victorious over the opposition which had developed to his re-election as national committeeman, which had been encouraged by Governor Neff's friends. Alva Bryan, of Waco, endorsed by the Waco delegation for the post, withdrew, leaving Love without opposition. W. A. Hangar, of Fort Worth, who until the recent McAdoo campaign was a bitter opponent of Love, is said to have brought about the withdrawal of Bryan.

Selection of Marshall Hicks, of San Antonio, as temporary chairman, is regarded as a blow to Governor Neff's chances of going to the national convention. Hicks resigned from the board of regents of the University some months ago. The San Antonio delegation, also instructed against Neff, and Hicks, as a member of that delegation, is expected to recognize the faction opposing Neff on the convention floor.

The Owensley friction is apparently settled, with assurance given that the Texas former Legion commander will be "indorsed" for the vice presidency, but not "instructed" for him.

In the keynote address before the convention Chairman Hicks lauded the Wilson administration and read a telegram of greeting from McAdoo, in which McAdoo expressed confidence in the Texas delegation to "clinich victory for progressive democracy." Governor Neff did not stand with other delegates when the telegram was read.

Following appointment of committees, the convention adjourned until 2 o'clock. The first business will be the re-election of Thomas B. Love as national committeeman.

Fire Does \$200,000 Damage In Kansas

KANSAS CITY, Mo., May 27.—Fire in the building occupied by the Jenkins Bros. Music Company caused \$200,000 damage to the structure and stock today. The blaze started in bundles of waste paper and rapidly spread through the six-story building.

PARIS, May 27.—An American naval technician was here today studying developments in the matter of the diabolical or death ray invented by Grinell Mathews, an Englishman.

Big Storm Sweeps Over Two States

Methodist Ladies Discuss Child Welfare

The Woman's Missionary Society met Monday afternoon at 3:30 at the First Methodist Church. Quite a few ladies were present for the mission study lesson on "The Child and America's Future." Mrs. Andrews opened the service with prayer after which Mrs. Landrum gave us such an interesting lesson on Saving Young Babies, Mrs. Andrews, Mrs. Anderson and Mrs. Peyton giving relative Scriptural readings. The lesson was very aptly illustrated by beautiful posters made by the Sumpter Street School children on Child Health and Hygiene, and which were very kindly loaned us by Mrs. Bergeron.

—Reporter.

Dan Cupid Losing Out In Jefferson

BEAUMONT, May 27.—Cupid had a great inning in Jefferson county during May 1922—an average of five licenses a day were issued in the "merry" month of that year.

But this is leap year and the average has slumped to between two and three a day.

To make matters worse, 84 divorce cases were filed during the first 17 days of this month and the famous "Dan" threatens to lose his crown for all time in this county unless he bounces his hits during the remaining 14 days.

Despite the fact that only the 58th district court has been in session, 25 couples again become fair game for Mr. Cupid. Had both courts been in session for the entire month it is believed that the number of divorces would have exceeded the number of licenses by a goodly margin.

County Clerk, W. A. Coward is unable to account for the slump. He averred, however, that if Judge Campbell would start work on his divorce docket he might do some work because it "appeared that his office would get no marriage business until people were first issued divorces."

HEAVY LOSS OF LIFE-PROPERTY DAMAGE IS RESULT

BIRMINGHAM, Ala., May 27.—Heavy loss of life and huge property damage has been reported as result of tornadoes which swept parts of Mississippi and Alabama.

Ten persons reported dead at Creighton, which was apparently the hardest hit.

Dead in other towns and villages range from ten to eight, according to reports.

The storm seemed to have struck simultaneously over a wide area.

Communication is demolished and great damage to crops was done. The heaviest floods in the history of the section are reported from Charleston, Miss. Scores of the injured are being cared for by the local Red Cross units.

RELIEF WORKERS ON JOB

JACKSON, Miss., May 27.—Re-

lief workers from Brookhaven, Miss., were caring for dozens of injured in the cyclone which struck and demolished the village of Johnson Station, in Lincoln county, south of Brookhaven.

First reports that eight persons were killed have not been verified. Wires are down and communication impossible.

Six injured persons, three of one family, are being cared for in a Brookhaven hospital. All are severely injured.

The tornado demolished two stores at Summit, near Brookhaven, it was reported today. Two negroes are reported buried under the debris of one store.

LATER—It is believed that 36 or more are dead in the cyclone in Alabama and Mississippi.

THE WEATHER.

East Texas—Tonight and Wednesday, unsettled, probably local showers and thunder storms; cooler tonight in northwest; cooler in interior Wednesday.

West Texas—Tonight and Wednesday, unsettled; probably showers in north portion tonight.

Sumpter St. School Gives An Exhibit At Public Library

The Sumpter Street is giving an exhibit of regular school work at the Public Library today and tomorrow. The exhibit is open on each of these days from 10 a. m. until 6 p. m. and the public is invited and urged to come and view the work which is now on display. The exhibit consists of examples from every department of the Sumpter Street School.

AMUSEMENT BAN LIFTED BY METHODIST CONFERENCE

SPRINGFIELD, Mass., May 27.—The amusement ban, prohibiting dancing, theatres, games of chance, etc., was partially lifted by the general Methodist conference when it voted to adopt the majority report on state of the church. Members will be required to refrain from "such diversions as cannot be used in the name of Jesus Christ."

AURORA, Ill.—Connie Carrie, Sioux City, Iowa, earned a draw in his 10-round battle with Bud Taylor, Terre Haute, Ind., here last night.

THE EDITORIAL OF THE DAY

THE KIND OF PRESIDENT THE COUNTRY NEEDS!

Jim Lowry, editor of the Honey Grove Signal, has discovered that the United States needs a bald headed man for the presidency, and he has spent considerable time in digging into history to prove that he is correct.

"But what kind of a man does the country need for president?" asks the astute editor of the Honey Grove Signal. "This is the question now agitating the minds of the people of the United States. I have promised not to discuss the question from a party standpoint, and I will not. I have studied history to find the kind of men who have served best as chief executives, and have studied closely the pictures of all the Presidents. I find that times were good during the reign of George Washington; I also find that taxes were very low while John Quincy Adams was President. The thing to do, then, was to study the pictures of George Washington and John Quincy Adams, and this I did. The pictures of these distinguished patriots show that both were bald-headed. And so it is clear to me that what this country needs is a bald headed President. There hasn't been such a President since John Quincy Adams, and matters have been constantly growing worse since that great statesman left the White House.

"By consulting Holy Writ I find that the Lord never favored hairy men for official position. Esau, who had a heavy suit of hair on his head and body, was born head of Israel, but the Lord took his birthright away and gave it to bald-headed Jacob. Long-haired Sampson had a good job as Judge, but instead of looking after his country as he should, he gave away state secrets to a heathen suffragette and was by her lured to a tragic death. Long-haired Absalom had a large following and a fine chance to capture the throne of Israel, but he let a tow-headed mule hang him to a limb and became an easy target for a javelin of Joab. It is easy to see that what this country needs is a bald headed President."

Jim Lowry is a bald-headed man. Let the reader draw his own conclusions.

Foreign-Born In Cities Big U. S. Church Problem

GRAND RAPIDS, Mich., May 27.—

A report of the 122nd year of Presbyterian Home Mission in the United States was presented today to the Presbyterian General Assembly by the new Board of National Missions. Dr. John A. Marquis, general secretary, stated that the emphasis is no longer upon territorial expansion, but that the overwhelming problem is in the baffling complexity of our population. Dr. Marquis said that the rapid changes of recent years have left the church bewildered and all but helpless in thousands of communities where once it was securely planted. The great new idea embodied in the Board of National Missions is to create an inclusive national organization broad enough to deal with every aspect of Christianizing America.

The work of National Missions, says the report, is conducted within the border of every State in the union, and also in Alaska, Canada, Cuba, Porto Rico and Santo Domingo.

Within this field of National Missions are gathered human beings of the greatest mixture that have ever dwelt under one flag in the history of mankind, a total of 125,000,000 people. Among them are 11,000,000 negroes. There are also 14,000,000 foreign-born, most of whom cannot speak the English language; and these have 21,000,000 children who, if they ever learn English must learn it outside their own homes. Together they constitute one-third of our population and are a problem in assimilation no nation has had to tackle before.

Included in these multitudes are 7,000,000 Spanish-speaking people. Two million of them live along the southern border and 5,000,000 of them in the West Indies. In addition to these there are about 4,000,000 other

Latins living in the United States. Besides Latins there are several million Slavs, Russians, Czechs-Slovaks, Poles, etc., and something like 1,000,000 Greeks and others from the Balkans and Eastern Europe.

To give a concrete idea of how conglomerate and mixed this population is the Board of National Missions every Sabbath preaches the Gospel in forty-nine languages.

Five Big Problems. The report stated that five problems stand out.

The first has to do with the readjustment of population as between city and country. In 120 years the number of cities with a population of over 8,000 has increased from six to 924. The total population resident in such places has increased 219 fold, or from 4 per cent of the total population to 44 per cent of the total. The tide of foreign-speaking population that has flowed into the greater urban centers has inundated many of the older American churches. At the same time, especially in the older settled sections of the country, rural communities have declined in population and open country institutions have lost its prestige to the villages and towns.

The second condition which manifests itself here and there throughout the country is the retardation—economic, social and educational—which still characterizes great numbers of people. Many millions of people in the aggregate have been left far behind in the march of progress, with institutions, culture

and outlook reminiscent of a long distant past, due to their topographical position. Rapid changes are taking place now as modern inventions break through the walls of isolation. But in many such sections the meagerness of the resources at hand and the very rapidity of the social change create conditions which are and will for a long time continue to be of grave concern to National Missions.

The third problem presenting many aspects and everywhere present in some form is the problem of race relations. Out of every hundred of our population 14 are foreign-born, 20 are children of foreign-born, 10 are descendants of foreign-born, who have preserved to some degree foreign characteristics, and 11 are negroes. The United States has received 35,000,000 immigrants in the last 100 years. We have one-fourth of the world's Jewish population. In many of our largest cities, such as New York, Boston, Newark, Buffalo, Cleveland, Lowell,

Chicago or Milwaukee, over 70 per cent of the total population is foreign born or of foreign parentage.

The fourth problem is the problem of the migrant. There are many widely extended industries which draw workers from large areas and keep them employed for but a short period. They are not vagrants, but they are seldom long in one place and settled community institutions have but very slight contact with them. To reach the migrant with the message of religion is a peculiarly difficult problem, but they cannot safely be left untouched by the church.

Finally, there are the very considerable numbers of definitely non-Christian peoples, that is, those who nominally at least are adherents of some other religion than Christianity. The Jews, Mormons, Orientals and that part of the American Indians still remaining in paganism are the chief examples. Their number ag-

gregates at least 5,000,000.

The report thus discusses the church instrumentalities for meeting these problems and puts stress on education and Americanization. "A Christian democracy can only exist among an educated people," it says. The report covers in detail the entire process of reorganization of every branch of its service. Under the section concerning buildings and property it was stated that four out of five of the country churches need to be rebuilt.

Dog Pound Pen Overturned And Dogs Liberated

BONHAM, Texas, May 27.—Ten dollars has been offered for the arrest of the person who thwarted the forces of law and justice here twice in the same way.

Forty dogs, held in the city pound, were unlawfully given their freedom here for the second time in a period of two days.

According to Chief Grimsinger, the huffed potentate of the city peace forces, the animals were released by lifting up the pen and turning it over.

"It will be the last time that trick is done," said the chief. "We are on the lookout for the culprits and will prosecute them if caught." Whether humor or the desire to recover a dog was the motive in the pound delivery is not known.

Good Advice for Women

San Antonio, Texas—"While taking Dr. Pierce's Favorite Prescription for feminine weakness I was also relieved of stomach trouble. The 'Favorite' was exactly the tonic I needed in every respect. I got well shortly after I started taking it. My belief is that what it did for me it will do for others. Therefore I advise all women who are in poor health to take a course of this treatment."—Mrs. J. T. Stauffer, 1522 W. Houston Street.

MEXIA NEWSIES MAKE MUCH MONEY WITH LITTLE WORK DURING THE DAY

A ten day record of the Newspaper sales made each day by some of the newsboys of Mexia was kept by E. J. Ormsby, of the Pioneer News Stand. This record was kept of the morning sales only. A record of the Daily News sales in the afternoon would show a fifty per cent larger amount.

The amounts which show for the month and the year below were based upon the sales made during the ten days. The amount shown for each day is the average earned per day during the ten days that the record was kept.

| | (Average per day) | (Per Month) | (Per Year) |
|-------------------------|-------------------|-------------|------------|
| F. H. Thompson | \$.123 | \$37.53 | \$525.42 |
| J. T. Sharp | .30 | 27.90 | 334.80 |
| Marshall Kilon | .68 | 21.08 | 252.96 |
| Gerald Sharp | .63 | 19.53 | 234.36 |
| Earnest Vandiver | .59 | 17.36 | 208.32 |
| J. O. Stewart | .48 | 14.88 | 178.56 |
| G. B. French (10 years) | .31 | 9.61 | 115.32 |
| Clyde Miles (9 years) | .43 | 13.33 | 159.96 |
| Earl Sawyer | .67 | 20.77 | 249.24 |
| Rufus Copeland | .57 | 17.67 | 212.04 |
| Bill Thompson (8 years) | .20 | 6.20 | 74.40 |
| Jimmie Cline (10 years) | .30 | 9.30 | 111.60 |

This record was made during the ten days preceding the opening of the baseball season and newspaper sales have largely increased since then. Each boy was told how much he had earned with the idea of inducing them to save. However some of the boys had been saving and others had made enough in the hour and one half which they worked before school each day and in the few hours put in after school to buy all their clothes and to have spending money besides.

This record made by the newsies is something, it is believed, which cannot be excelled by any town in the south of even twice the population of Mexia. The people of Mexia have been more responsive to newspaper reading than is usually found in the other small cities of the state, and this it is pointed out, shows a cosmopolitan citizenship.

In addition to this record of some of the local newsboys, there is a carrier organization, the figures of which would be very interesting and will no doubt be given out after a time. It has taken a long time to bring the carrier crew to the present state of service to the customers. The routes followed each evening by the boys on the delivery of The Mexia Daily News are theirs. The boys also have the exclusive right to the sales of Sunday papers and magazines on their own routes. Mr. Ormsby is the wholesaler who supplies the boys with the papers. The boys pay him a dealers price for the periodicals which they sell. The carrier boys get commissions on all subscriptions and collections.

Easy Lessons in AUCTION BRIDGE

New Series

COPYRIGHT 1923 BY HOYLE, JR.

ARTICLE No. 18

The good Auction player is the one who makes his bids mean something definite. That is the secret of good Auction—to convey exact information by the bidding whenever possible. This can be done in the original suit and no-trump bids by following the conventional requirements for such bids. An original suit bid by dealer or second hand should indicate at least two quick tricks, either in the suit bid or one in the suit bid and one outside trick; if the original bid is no-trump, it should indicate at least two quick tricks distributed among three suits. Such bidding gives exact information to partner and keeps him from guessing.

Again, suppose the dealer bids one spade and second hand bids two hearts. The latter bid should indicate at least one quick trick in the heart suit and a possible trick in one of the other suits. Or suppose your partner deals and bids one spade, second hand bids two hearts and you bid two spades. Such a bid should indicate to your partner that you have at least three spades and two or more quick tricks in side suits. These examples are given merely to indicate opportunities of giving exact information. If you fail to give this information when you have the chance, or give incorrect information by incorrect bidding, you are misleading your partner and are sure to get into serious trouble.

One of the most difficult problems of giving exact information by the bidding occurs when one no-trump has been bid on your right and you have a strong hand. Under such conditions your strong suit should not be bid unless you have a fair chance for game. Such a bid gives more information to your opponents than to your partner, as it reveals to them the weak spot of their no-trump and thus gives them a chance to shift to a suit bid that may give them a game not otherwise possible. The old rule was: "Do not bid over a no-trump on right unless your hand is strong enough to rebid without assistance from partner." Under the present system of bidding this rule is not often applied. The informatory doubles are now so popular that if a no-trump is bid on your right and you have a hand as good as an original no-trump, (that is containing at least two quick tricks distributed among three suits), an informatory double usually gives better results than a bid. There are still hands, however, that should be bid over a no-trump on right. To test out these types of bids, the following hands are submitted. In each case Z is the dealer and has bid me no-trump. A, second hand, holding the cards specified, is required to make a bid.

What should A bid?

Hearts—5
Clubs—A, J, 9, 2
Diamonds—A, J, 7, 4
Spades—A, J, 8, 5

Hand No. 9
No score. A holds:
Hearts—None
Clubs—None
Diamonds—A, K, 7
Spades—A, K, Q, 9, 7, 6, 5, 4, 3, 2

Hand No. 10
No score. A holds:
Hearts—J, 8
Clubs—None
Diamonds—A, K, Q, 8, 6, 4
Spades—K, 10, 9, 6, 3

In order to get the most benefit from the bidding of the foregoing hands, the writer suggests that the readers select what they consider as A's proper bids and compare results with the writer's opinion which will be published in the next article.

WATCHING THE SCOREBOARD

Yesterday's hero: Ernie Johnson, Yank utility infielder.

He hit two home runs, a double and a single and helped beat Detroit, 8 to 2. The Babe hit his eleventh homer also.

The Reds fell into another piece of bad luck when Fonseca broke his arm sliding and went out of the game for the season. The Cards also beat them, 4 to 3.

Cleveland scored five runs in the

fourth but the Red Sox scored seven in their half and won, 10 to 9.

In a game that went only one hour and twelve minutes, the Athletics beat the Browns 2 to 1.

Helped by the hitting of Joe Judge who got four hits in four trips up for the second successive game, the Senators beat the White Sox, 8 to 2.

Yesterday's Homers.

Ruth, Yanks, 1—11.
Johnson, Yanks, 2—2.
Miller, Athletics, 1—2.
Myatt, Indians, 1—1.

A Good Thing - DON'T MISS IT

Send your name and address plainly written, together with 5 cents (and this slip) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing CHAMBERLAIN'S COUGH REMEDY for coughs, colds, croup, bronchitis, "flu" and whooping coughs, and tickling throat; CHAMBERLAIN'S TABLETS for stomach troubles, indigestion, gassy pains that crowd the heart, biliousness and constipation; CHAMBERLAIN'S SALVE, needed in every family for burns, scalds, wounds, piles and skin affections; these valued family medicines for only 5 cents. Don't miss it.

Cutworms Working In East Texas

By R. R. REPPERT, Entomologist
Reports are reaching us from certain counties, especially in East Texas, that cut worms are doing damage to young cotton. It is hoped that the following suggestions will be of value to farmers of such sections.

The worms may be destroyed by distributing oison bran mash thinly along the rows, using a planter or other such mechanism, or by placing it by hand. The mash is prepared of the following materials:

Wheat bran 25 pounds.
White arsenic or paris green 1 pound.
Lemons or oranges 6 fruits.
Low grade cane or sorghum molasses 2 quarts.
Water 1 gallon.

Mix the bran and poison thoroughly while dry. Dilute the molasses with the amount of water as named, squeeze the lemon juice into this diluted molasses, then grind the rind of the lemons with a meat chopper and add this also to the liquid. Then mix the liquid thoroughly with the poison bran mixture. After an even mixture has thus been obtained, add more water and mix, until a mash is obtained that when squeezed in the hand readily falls apart.

The formula suggested above is the same that is effective in grasshopper

BOSTON.—Johnny Sheppard, Woburn bantamweight, won a 10-round decision from Abe Goldstein, bantamweight champion. The title was not at stake as Sheppard came in over weight.

Kin of Washington Seeks Divorce.

Mrs. Mary Morosini Crabbe, New York society leader and heiress to the great fortune of her father, A. P. Morosini, of Riverdale-on-Hudson, N. Y., has filed suit in Reno, Nev., for divorce from William Lafayette Crabbe, a retired captain in the U. S. Marine Corps, now living in St. Louis. Mrs. Crabbe is a great-granddaughter of George Washington.

Judge D. Leon Harp, formerly of this city and now of San Antonio, was a pleasant visitor to Mexia Monday and Tuesday. Judge Harp returned to San Antonio on the noon train Tuesday.

Mrs. John Poindexter and little son, of Crockett, are the guests of Mrs. Poindexter's mother, Mrs. Charles Alderman, of East Commerce, this week.

AURORA, Ill.—Connie Currie, Sioux City, Iowa, earned a draw in his 10-round battle with Bud Taylor, Terre Haute, Ind., here last night.

UNITED STATES TIRES ARE GOOD TIRES

Well Shod Motors

In addition to outstanding advantages in service—Royal Cord Tires add to the appearance of any car.

These long-wearing, handsome tires never seem to look down at the heel—no matter how far they have gone.

Part of this is due to their perfectly balanced construction and part to the use of latex treated cords. This new patented latex treatment is a major contribution on the part of the makers of

Royal Cords to better tire service. It is the outstanding tire development of today.

You get the benefit of it in all Royal Cord Tires whether you buy the standard high-pressure type—the full Balloon for 20, 21 and 22 inch rims or Royal Cord Balloon-Type Tires built to fit present wheels and rims.

Consult your dealer about the type for your car but insist on Royal Cords.

United States Rubber Company

U. S. Tires are the only tires in the world
made of cords solutioned in rubber latex.

MEXIA LOSES IN EIGHTH WHEN MARLIN RUNS IN TWO

Pounding Hill's deliveries for three two baggers in a row Marlin took the second game here with Mexia Monday afternoon by the score of 3 to 2. Hill pitched a mighty good game until the eighth when four hits and two runs snatched victory from his grasp. Up until that fatal inning the game had stood one to nothing in favor of the home club and it looked as if the veteran Gusher moundsman had added another feather to his cap. But the three two baggers lined out with heartbreaking regularity through centerfield spelled defeat and no amount of desperate hitting on the part of the Gushers could dissipate the gloom which settled upon them with the loss of a victory which was so near theirs.

From beginning to end the game was interesting. There were few errors, Marlin getting credit for two and Mexia making one, and sensational fielding on the part of the Gusher outfield often brought the small crowd of fans present to their feet with loud cheering. Marlin obtained eight hits off Hill while Meeks for Marlin held the Gushers to only four.

MARION DAVIES' CAREER SERIES OF SUCCESSES Marion Davies, the twenty-three-year-old star of Cosmopolitan productions, was born in Brooklyn, the daughter of Judge and Mrs. Bernard Douras. She attended the Brooklyn grammar school and then entered a convent in New York City, specializing in dramatic arts, French literature and music. She was an apt pupil and several times completed in one year the regular studies of two. She left school when very young, being drawn to the stage. Living at home with her parents, she did not have the struggles nor hardships which many girls undergo. From the "Chin Chin" chorus she was chosen by several producers who wanted her in musical comedies and was cast in "Oh, Boy!" When Harrison Fisher asked Miss Davies to pose for his delightful study, "Morning," there followed universal acknowledgment that hers was Temple .003 000 200—5 Two-base hits—Brown, Leissner. Strike outs—Ragan 3, McCall 3. Base on balls—Off Ragan 2, McCall 2. Pitchers' record—Off McCall 5 hits, 3 runs in 7 1-3 innings; off Crow 2 hits no run in 1 1-3 innings.

CHANCELLOR'S CHICKEN FARM BERLIN.—Chancellor Marx has gone into the poultry business on a small scale. The huge garden of the Chancellor has been converted into a miniature chicken farm. an extraordinary loveliness. Since that time the celebrated star has posed for the best artists in the country, including Howard Chandler Christy, W. T. Benda, Frank X. Leyendecker, Carl Link, Penrhyn Stanlaws and others. After her appearance in "Oh, Boy!" Miss Davies was chosen for the Ziegfeld "Follies" and from there she went into pictures. She has made over a dozen pictures, all of them Cosmopolitan productions. Her wonderful interpretation of Princess Mary Tudor in "When Knighthood Was in Flower" brought her praise from all over the world and gave her undisputed place as one of the best screen stars of the day. Her grip on stardom has been further strengthened by her portrayal of "Pat O'Day" in "Little Old New York," directed by Sidney Olcott from Rida Johnson Young's stage play. It will be the attraction at the National Theatre today and tomorrow.

TO MAKE HEALTH SURVEY NEW HAVEN, Conn.—Professor Charles Edward A. Winslow, chairman of the Department of Public Health of the Yale School of Medicine, and Professor Ira V. Hiscock, also of the department, are in Minneapolis, Minn., where they have been invited by the Council of Social Agencies to make a study of the health machinery of the city. The survey is being conducted in general accord with the program of the Committee of Municipal Health Department Practice of the American Public Health Association, of which Professor Winslow is the chairman.

COULDN'T GAIN DEATH

PARIS.—Disappointed in love, a sergeant-mechanic at the aviation field at Tryoes, Aube, sought to fly into a better life. He got his wings by appropriating a Government airplane—but he had not leadned to fly. The machine under full "gun" tore wildly along the ground for some distance and then tumbled over in a complete wreck. The sergeant was only slightly injured. He will be court-martialed for damaging army property. He said his plan was to rise among the clouds and then end his life by crashing to earth.

Look--Mr. Farmer

Is Your Growing Crop of Grain Insured Against Loss by

FOR MORE THAN 100 YEARS THE

HARTFORD FIRE INSURANCE CO.

has stood between its patrons and adversity, paying every honest loss dollar for dollar. A Hail Policy in the Hartford may save your entire year's labor.

IS BACKED BY THE HONORABLE RECORD OF MORE THAN A CENTURY AND CASH ASSETS OF OVER

SIXTY-SEVEN MILLION DOLLARS

BE SAEER RATHER THAN SORRY

A STRAIGHT BUSINESS PROPOSITION

Spend a minute or two considering the matter of Hail Insurance—what it can do for you—how much it will cost—and just what sort of an investment you are making in buying a Hartford Hail Insurance Policy. First of all, what happens if a serious hail storm comes and wipes out your crop? You lose every dollar that has gone into seed—fertilizer—labor—machinery—and all of the miscellaneous items that add to the costs of production. In addition you lose the profits that your crop should have earned. Can you afford such a loss? Have you a reserve fund that will cover the emergency? If NOT, a hail loss will be a staggering blow. You may have funds deposited in a bank, that will help fill the gap caused by your loss, but you are robbing your savings account when you use them.

IT DOESN'T PAY TO TAKE CHANCES

For a relatively small sum you can buy, not only certain protection in case of loss, but what is an even greater satisfaction—peace of mind. When you order a Hartford policy through this agency, you are insuring in a company that has, since 1810, paid over \$300,000,000 in insurance losses and that has never failed to make good every honest claim. At a word from you, the policy will be written and delivered to you without delay.

STORY of CYNTHIA ANN PARKER IS ALMOST LIKE FICTION

Cynthia Ann Parker, 9 years old, and her little brother, John Parker, aged 6, years, children of Silas M. Parker, were captured by raiding Comanche and Kiowa Indians, on May, 18, 1836, after the capture of Parker's fort, located on the west side of the Navasota creek near the present site of Groesbeck. There were only eight or nine families in the colony that occupied the fort and the Indians, artfully feigning the treacherous semblance of friendship, pretending they were looking for a suitable camping place, asked about the locality of a water hole. The tragedy was soon enacted and Cynthia Ann Parker and her brother, John, were taken away by the savage Indians, after the massacre of the members of the colony who were present at the time and those who did not escape, some being left for dead that survived their ill treatment. Other prisoners were taken away at the same time and from time to time the captives were returned to their homes.

Was Left to Die.

For nearly five years no trace of Cynthia Ann and her brother were found. The brother and sister were separated and gradually they forgot the language, manners and customs of their people. John grew up as an Indian, and was one of a raiding party that went into old Mexico, where a pretty Mexican maid was captured and brought away on return of the Indians. John Parker fell ill and the Indians left him out on the Staked Plains. The girl had fallen in with him, refused to leave him, and she too was left to die. John recovered and that couple were married at Eden, and settled on a ranch near the Rio Grande. John served in the Confederate army and made a record as a gallant soldier.

In 1840 Col. Lew Williams, Mr. Stoot and an Indian guide fell in with a band of Comanche Indians on the Canadian river and it was found that Cynthia Ann was with the tribe and who, from the day of her capture, had not seen a white person. She was then about 14 years old and had been with the Indians about five years.

Became Bride of Chief.

As the years rolled by she developed the charms of womanhood and she brought many young braves to her shrine. Cynthia Ann became the wife of Peta Nocona, a Comanche war chief, and she bore him numbers of children, performing for her lord all the slavish offices which savagery of Indian customs assign as the duty of a wife. Some 15 years afterwards a party of white hunters visited the Comanche encampment and sought to secure her consent to return to her people. She shook her head, pointed to her little naked children playing about her feet and to the great greasy Indian sleeping in the shade of a tree with scores of scalps dangling at his belt.

In 1858 in a battle fought on the South Canadian or Antelope Hills, Peta Nocona, husband of Cynthia Ann, was second in command of the Comanches.

War on Comanches

About May 1, Col. John S. Ford, at the head of 100 Texas rangers, with such leaders as Capt. S. P. Ross, W. A. Pitts and Preston Takersley, and 111 Toncave Indians commanded by a celebrated chief, Placide, marched against the Comanches. Placide claimed for his warriors the privilege of wreaking vengeance upon old enemies. Not a single Comanche brave surrendered, not a single warrior escaped, they preferred death to the humiliation of restraint in captivity.

The Comanches renewed hostilities during the summer of 1858, and on Oct. 2 the Texans located the Comanches, and Captain Ross with his Indian soldiers slipped upon them and drove off their horses leaving them about to fight. A few minutes after the fight started Comanches were found running and in the severe fighting Captain Ross was severely wounded, brought back home and recovered.

In 1859-60 the frontier was again in a turmoil and deplorable conditions prevailed and the people were in a position of defense. In 1860 Pete Nocona with a girl behind him on a horse, in an effort to escape from the battle at Pease river, was chased by Captain Ross who shot the girl off the back of the horse, she dragging Nocona to the ground with her. Captain Ross thought she was a brave, being covered with a blanket. After Pete Nocona was dismounted Captain

HOME DRESSMAKING

By JEANNE ROLAND
(Copyright 1924 by Pen-Art Service, Inc.)

Fashion is Using the New Ribbons

Figured Vols in Individual Design

Numerous are the touches which one may give to inexpensive fabrics to impart to them the charm of imported models. The use of pictorial and ribbon in the decorative scheme of this dress is unusually effective.

The season's cottons, and especially the voiles, are so original in their coloring and design, that one

hesitates to bedim the glory of the material with the trimming that adorns it. Decorations should rather heighten the beauty of the fabric. Here a straightline frock has the skirt slashed into narrow panels which are rounded away at the lower edge and piped with silk in the predominating color of the figures in the voile. Three and one-half yards of material 36 inches wide are needed for the dress.

Pictorial also finishes the edge of the round neck and the short sleeves. There come many very narrow braids and ribbons which may be set along the edges of panels, neckline, etc., that have the same effect as piping and do not require as much work.

The waist is finished with a very narrow ribbon belt, far more conspicuous in its ending than in its real service. The bow is finished under an enticing rosette, which is very easily made. First determine the

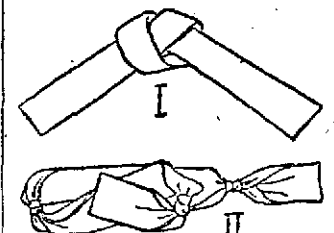

Fig. I—Loop of desired length with knot in center.

Fig. II—Loops folded and arranged for rosette.

length that the loops are desired to be, then place a knot in the center of each loop, Fig. I. The loops are then folded and placed alternately to the right and to the left and tied with a knot in the center, Fig. II. The ends are knotted at intervals, as shown in the illustration.

If desired, the dress may be built over a colored slip which shows as the panels away with the motion of the figure.

Ross shot him and broke his right arm, shooting him two more times in the body. The chief went back and sat down under a tree, shooting arrows at Captain Ross whose pistol was now empty.

Boy Gets Revenge.

A Mexican boy who carried an extra gun for Captain Ross came up and when he saw who it was he begged for permission to shoot him, declaring that Nocona had killed his entire family. He was granted the privilege and with a double-barrel shot-gun in readiness walked over to Nocona and talked briefly in Mexican with the Indian chief, who was even then dying from mortal wounds. He tore open his shirt and bared his breast. The Mexican boy then shot and killed him, this being the end of life for Cynthia Ann's husband.

At the same time that Nocona fled with the 15-year-old girl behind him Cynthia Ann with a girl child about two years of age in her arms, mounted on a fleet pony and fled. Lieut. Tom Kelliher caught up with Cynthia Ann and brought her and the baby back, remarking that she was only a squaw. Captain Ross looked at her and remarked, "Why, Tom, this is a white woman." When Cynthia Ann was taken away she left behind her on the field of battle her two small sons, Quannah Parker, who after reaching manhood was made chief of the Comanche tribe.

Cynthia Ann Parker was in the hands of the Indians from May 18, 1836, to Dec. 18, 1860, 24 years and seven months and she was nine years old when she was taken into captivity, taking on all the manners and custom of the Indians among whom she was raised.

She was brought back to the vicinity of her early childhood and made several attempts at escape so that she might return to the Indians and had to be closely watched until she found that she was with friends. An uncle who lived in Parker county was sent for and positive and final identification was made that settled the question of her identity.

In time she learned her language over again and she was living with her brothers in Anderson county when she died in 1864, preceded a short time by her daughter, Prairie Flower. Quannah Parker was born in 1831 and was raised to the position of chief of the Comanche tribe many years ago.

For the information contained in this brief story the News is indebted to Clint Padgett, who has a history of the massacre of the settlers at Parker's fort and the life of Cynthia Ann Parker and the Indian wars of the years prior to the Civil war.

Famous Last Words—"Watch me pass him at the next corner."

THE INFANT PRODIGY

The overnight development of the radio industry, even in a swiftly moving world, is one of the commercial romances of this century. Within the span of a little more than four years the ranks of the manufacturers, composed chiefly of those who had aided the army and navy during the war in the creation of the wireless telephone, have grown from a group of about fifty pioneers into an army of more than 3,000. Sales of radio material in 1920 amounted to a bare \$1,000,000. It is estimated that the American public during the past year spent at least \$150,000,000 in acquiring sets and parts of the instruments that tapped the ether. The strides that the industry is making may be indicated by the

Varicose Veins Are Quickly Reduced

No sensible person will continue to suffer from dangerous swollen veins or bunches when the new powerful, yet harmless germicide called Emerald Oil can readily be obtained at any well stocked drug store. Ask for a two-ounce original bottle of Emerald Oil (full strength) and refuse substitutes. Use as directed and in a few days improvement will be noticed, then continue until the swollen veins are reduced to normal. It is guaranteed and is so powerful that it also reduces enlarged glands, goitres and warts.

BIG FIGHT SPECTACLE IN "LITTLE OLD NEW YORK"

One of the most spectacular scenes ever filmed in motion pictures is the big mob scene in the Cosmopolitan picture, "Little Old New York," starring Marion Davies, now playing at the National Theatre today and tomorrow. Miss Davies, swung on the shoulder of big Louis Wolheim, is rushed through a mob of a thousand howling men to the whipping-post to receive the punishment which the crowd demands because she rang the firebell and stopped the prizefight. The scene occurs in the streets surrounding Bowling Green and the Battery of New York as they appeared a century ago. Over sixty thousand feet of floor space was covered by the pounding feet of the mob and fifty-five immense sunlight arch lights shot down a brilliance which rivaled the sun and made it appear as though it were really out doors. Director Sidney Olcott and his assistant, Saul Harrison, shouted themselves hoarse directing the great mob which followed Wolheim down the streets. The slender little figure of Miss Davies, perched on the shoulder of Wolheim as she is hurried to her doom is silhouetted against the sky above the heads of the crowds. Cameramen cranked madly as the mob swirled around the platform upon which the whipping-post was stationed. The cruel, avenging faces of the mob; the huge, brutal appearance of Wolheim as contrasted with the fair, fragile delicacy of Miss Davies as she is lashed to the whipping-post—all combine to make of the scene a most thrilling one. Refusing to employ a "double," Miss Davies insisted on taking the lashes inflicted by the cruel whip herself. The star insisted it would make the picture much better if she took the lashing herself. As a result the beautiful shoulders which have been painted by some of the most famous artists in the land, still bear the marks of the cruel blacksnake whip. Although Wolheim tried to lay on the lashes as lightly as he could and still register the proper effect it was impossible to spare the dainty little star entirely. Director Sidney Olcott, cameramen, mechanics and electricians alike, were loud in their praise of Miss Davies' fortitude in the interests of art. The resulting scene caused a sensation in New York. It was only the day previous to the whipping that Miss Davies fell from Wolheim's shoulders when the latter tripped. She was knocked unconscious for several minutes, but insisted on going on with the scene.

MUCH INTEREST IS EVIDENT IN STATE MEET TODAY

The delegates elected from Limestone county Democratic convention on May 6, to the State convention now in session at Waco are as follows:

Groesbeck: Ed Allen, E. G. Lloyd, J. E. Bradley, L. M. Seay, Mrs. C. D. Oliver, Carl Canno, W. C. Wolverton, Scott Reed.

Mexia: Ben B. Hunt, G. W. Perkins, A. H. Berry, Dr. R. B. Jackson, W. M. White, R. M. Andrews, A. G. Adair, L. S. Suttle, J. D. Arrington, N. P. Houx, G. A. Walters, Mrs. Geo. M. Tidwell, Mrs. J. D. Arrington, O. F. Watkins, I. W. Keys, R. D. Morgan, E. J. Hitt.

Tehuacana: Henry Unfried, F. H. Rankin, Mrs. W. W. Jackson.

Fallon: T. B. Walker.

Shiloh: J. R. Sellers.

Oletha: T. J. Richardson.

Pervonville: A. B. Crider and Gene Calvary.

Kosse: Joe Curry, Dr. J. H. Mitchell, T. A. Griffin, W. L. Forbes.

Thornton: C. A. Bates, E. L. Giddens, Miss Virginia Bedford.

Farrar: T. B. Mills.

Elm Ridge: J. L. Drinkard.

Coolidge: T. L. Satterwhite, Ed Cox, Mrs. E. H. Hill.

Forest Glade: W. L. Dorsett.

Kirk: J. T. McLendon, C. W. Cox.

Ben Hur: Clyde Gant.

Fresa: Homer Webb.

Watt: C. W. Moody.

Delia: W. B. Herring, E. H. Hitt.

Munger: W. C. Wilson, T. J. Cole.

PARIS.—The first temptation for Olympic athletes in Paris is the so-called "wire of honor," a flowing goblet of champagne, offered by the official reception department of the Olympic Committee.

The idea is to brighten the greeting and make the muscular guests feel at home. — is not denied French athlete. — their training, but what can Coach Robertson do when the bubbling bottle (or bottles) is broken in honor of the Americans? Will it be diplomatic for him to shun the honor and ask for water? And if he doesn't what of his training rules?

But perhaps the committee members will be tolerant. They are kept hustling greeting the many different groups that arrive daily, and some days they feel that enough is enough, however, good the champagne.

Three more Gushers were given releases Monday night. They were Peel, McDowell and Schleffer.

Epitaph: "He didn't have time to stop at the crossing; he has plenty of leisure now."

Mustang: H. H. Alexander.

A large number of the members of the Limestone delegation left Monday afternoon in order to be on hand in plenty of time for the opening of the convention Tuesday. Quite a number, however, on account of pressing business remained over until early Tuesday morning going to Waco via auto. Much interest is being shown in the performance of the important duty which faces the State convention today and almost all the delegates elected from this county are in attendance.

PRESIDENTIAL POSSIBILITIES SERIES, NO. 21.

ALBERT J. BEVERIDGE.

Red Sox Are Going Up Line

By HENRY L. FARRELL (United Press Staff Correspondent). NEW YORK, May 26.—With 14 victories in the last 19 games the eighth place Boston Red Sox of 1923 are now tied with the Yanks for first place in the American League pennant race. The Red Sox not only are carrying all the fight to the world's champions at they are furnishing the main excitement in the major leagues.

Bobby Quinn and Lee Fohl were expected to make some improvements in the Red Sox when the club was rescued from Harry Frazee. Fohl made the Cleveland Indian outfit that won the pennant for Tris Speaker and built up the St. Louis Browns that are now going so well for George Sisler. The best building, however, must have material and few critics thought that he would find the stuff around the wrecked Red Sox to develop a first division team.

Some of the smart experts now laugh at the serious mention of the Red Sox and predict that the club is going away over its head and is due for a good blow.

The Browns also are playing good ball and are within striking distance of the lead. Like the Red Sox, the Browns have been hitting hard, playing smart aggressive baseball and

getting good pitching. Little else is needed.

The Yankees have been in a slump that is not of their own making. The champions have been playing in a lot of hard luck and they have not been guilty of any bad baseball. Being a veteran club, it will work better when the weather gets warmer.

After making a most disastrous trip in the west, the Giants found themselves in Cincinnati and regained the National League lead by winning three out of four games from the contending Ohio team.

HE NEVER CAME BACK

DALLAS, Texas, May 26.—One negro bell hop at the Adolphus hotel is a few tints lighter as the result of the Texas Funeral Directors association convention which was held in the hotel. One of the delegates asked the boy to get some laundry from one of the casket display rooms at the hotel. The boy took one look and saw a large black coffin in the darkened room. Neither the boy nor the laundry returned.

BUMPS

on your face can't be removed from the inside because the more you drive out the matter they come from, the worse they get.

BLACK AND WHITE OINTMENT AND SOAP

heal the congested skin tissue, making the pores active so all this matter can get out as fast as the system throws it off. Then your skin becomes clear and stays that way.

They are sold by all dealers in liberal 25c and 50c packages. The 50c size ointment contains three times as much as the 25c size.

KARNAK, SENSATIONAL NEW MEDICINE, NOW AT MEXIA DRUG CO.

Thousands Acclaim the Wonderful Restorative Power of M. Andre's Remarkable Discovery and Declare It a Boon to Suffering Humanity.

HAS HAD SENSATIONAL SUCCESS!

Karnak, the sensational new health-builder discovered by M. Pierre Andre, noted French chemist, which has been accomplishing such phenomenal results in the larger cities, is now on sale at the Mexia Drug Co.

Owing to the enormous demand for Karnak, and the sensational success it has achieved everywhere it has been introduced this enterprising firm has placed with the manufacturers of Karnak the largest order ever given here for a single medicine.

Karnak is a purely vegetable medicine of remarkable purity and wonderful efficiency in the treatment of stomach and digestive troubles, weakness, nervousness, rheumatism caused by digestive troubles, sour stomach, fatigue, catarrh of the stomach, insomnia, loss of appetite, torpid liver, constipation, gasiness, auto-intoxication, dyspepsia, indigestion, mal-nutrition, a generally weak, run-down condition and a host of other symptoms and complaints not generally recognized as having

M. PIERRE ANDRE Discoverer of Karnak

their origin in stomach, abdominal and digestive derangements. As a general health-builder and strength restorative Karnak has become the sensation of the drug trade everywhere it has been introduced.

The action of Karnak is so natural and beneficial that it has won the name of "the master health-builder." It increases the appetite for wholesome food and helps the digestion turn this food into strengthening nourishment which builds up firm flesh and strong muscular tissue; it strengthens the organs of elimination, purifies the blood stream and builds up the whole body in tone, vigor and vitality.

Those wishing to regain their former robust health or build up their strength and stamina should not fail to avail themselves of this remarkable medicine.

The management at the Mexia Drug Co. was enthusiastic over having won the Karnak agency. "We are simply elated," it was said. "Mr. Andre's famous preparation is of such wonderful merit and reputation that for us to comment on it would be superfluous. It has met with sensational success everywhere and will be sold by us under the strict guarantee that if the first bottle does not produce substantial benefits the purchase price will be refunded. This shows the unlimited confidence of both the manufacturers and ourselves in Karnak. It is unnecessary to say more."

NOTICE TO DRUGGISTS

Special Advertiser Agencies for Karnak are being established as rapidly as production will permit. For details write or wire DRUG PRODUCTS, Inc. Atlanta, Ga.

RESULTS FROM KARNAK ARE GUARANTEED

President Thorburn, of Karnak Company, Issues Statement to Public.

Karnak is sold under a strict guarantee that the first bottle will produce beneficial results or the purchase price will be refunded without question. Both the manufacturers and the local distributors stand squarely behind this guarantee.

This policy was announced by Mr. H. C. Thorburn, President of Drug Products, Incorporated.

Substantiates Claims Mr. Thorburn first expressed his sincere appreciation of the interest and enthusiastic support given his Company by leading citizens here, who were interested in securing Karnak for this city. "This shows," said Mr. Thorburn, "that your citizens are anxious to try M. Andre's new discovery, and it is a privilege to tell the public that every bottle of the medicine will be sold under a strict guarantee. We want them to know that we always have and always will substantiate every claim made for Karnak."

Has Stood Test

"Karnak is manufactured by one of America's oldest, largest and most reputable pharmaceutical houses, which subjected M. Andre's discovery to the most prolonged and searching scientific tests. These tests proved its restorative power to be little short of astonishing. Then our own company undertook a long series of tests under conditions of actual usage which confirmed in every detail the results announced by the pharmaceutical laboratories. Since then Karnak has achieved phenomenal success in the hands of the people everywhere it has been introduced. These are among the many underlying conditions which make it possible for us to offer such an unusual and unqualified guarantee."—(Adv.)
